Vickie Hemeon Returns Home From Europe

Vickie Hemeon returned two weeks ago from a two month visit and sight-seeing trip to Europe.

Her first leg of the trip was taken by charter flight out of Vancouver, B.C. to London. A week was spent there and in Scotland. Among the highlights were watching the changing of the guard at Buckingham Palace and attending Picidilly Circus.

Traveling through Germany she visited a former Vernonia High School classmate, Danny Elton at Mainz. He is stationed in the army there. While in the area she met five girls from Montana, Washington D.C. and Iowa and traveled the rest of her trip with them, with the exception of the last two weeks.

At Munich they saw the Olympic Grounds and went through the famous beer brewery Lowen brau, the largest pub in Europe. Holds a thousand or more people at a given time.

In Paris a tour was made through the famous art museum "The Louvre" and saw the "Mona Liza" and other great works. The famous Eiffel Tower was visited. At Vienna, Austria they watched the world famous Lippizan Stallions.

She was greatly impressed after seeing the sculptor, Michelangelo's greatest work of the perfect man, "David," during their visit to Florence, Italy. Beautiful weather was enjoyed during the one and one half weeks spent on the Islands of Majorica and Ibiza, located on the southern tip of Spain. The Automium and Mannekin-Pis was visited at Brussels, Belgium.

Many more famous cities were visited among them Copenhagen, Amsterdam, Stockholm, Madrid, Innsbruck, Luzerne, Frankfurt, and Oslo.

During her European trip she traveled by Eurailpass and train. In all the 12 countries she traveled, Flam, Norway impressed her the most and hopes to go back for another visit next summer. Upon arrival flight back at Vancouver, B.C. she was met by her folks, Mr. and Mrs. Bud Hemeon, Mist.

An odd coincidence happened enroute to the airport to pick her up. While working their way towards the airport for nearly 1 1/2 hours they observed a young lady and older couple walking rapidly towards that direction. After several several miles of inching forward they came upon them again and decided to see if help could be given them. It turned out their car had broken down enroute to the airport so that the older couple could take a flight out to their home at Mainz, Germany. The Hemeons' daughter had visited Mainz during her European trip.
