DEQ To Be Restructured O'Scannlain Announces

Environmental Quality Director Diarmuid O'Scannlain announced a restructuring designed to bring DEQ decisions closer to the community recently.

The proposed plan will be presented to the Environmental Quality Commission for approval at its October 22 meeting. Five Regional Offices will handle permit recommendations and plan review at the regional level - "where the problems are," O'Scannlain explained.

The new organization completes restructuring started in August when formation of the Northwest Region was announced.

The Northwest Region, under Administrator E.J. Weathersbee will cover State Administrative Districts one through three, extending as far south as Salem. The regional office will be in Portland, on premises previously occupied by Columbia-Willamette Air Pollution Authority.

The Mid-Willamette Region of DEQ, located in Eugene, will cover Administrative Districts four and five (Linn, Benton, Lincoln and Lane counties) and will be under the administration of Verner Adkison who will also continue as Director of the Lane Regional Air Pollution Authority under an agreement approved in principle by LRAPA's Board of Directors. O'Scannlain noted that Adkison's dual role would mean greatly strengthened cooperation between DEQ and the Regional Air Program.

DEQ and LRAPA staffs will meet soon to work out details for approval at LRAPA's next Board meeting.

Other regions will be the Southwest located in Roseburg and comprising Administrative Districts six through eight, from Roseburg South; the Central Region, headquartered in Bend, Districts nine through eleven; and the Eastern Region, headquartered in Pendleton, Districts twelve through fourteen.

"Eventually," O'Scannlain

Interest Paid On Funds Hiked

Excellent investment results enabled Standard Insurance Company to announce an increase Friday, September 28, in the rate of interest paid on policyowners funds.

Scappoose St. Helens representative Robert K. Nelson, learned that effective October 1, policy proceeds left with the company will earn 6 1/2 percent interest, up from 6 percent. Dividends left to accumulate at interest and premium deposit account funds will draw 5 1/2 percent up from 5 1/4 percent. The increases apply to existing funds as well as those deposited after October 1.

The new interest rates will be among the highest paid by any major U.S. life insurance company. "These rates are especially significant since there are no restrictions on withdrawal rights," Nelson noted.

Nelson further stated, "Standard has traditionally been an industry leader in investment yield. In 1972, Standard's net yield on invested assets was 6.28 percent, while the industry average was 5.69 percent. Standard has assets of over \$230 million, invested heavily in mortgage loans and real estate throughout the West.

Nelson's office is located at Norwood & Associates, 1570 Columbia Blvd. St. Helens.
