

HERE'S VALUE

These prices are low..yet every Range on these two pages has a

CONTINUOUS-CLEANING OVEN that eliminates most of your oven cleaning drudgery

All Ranges available in White, Coppertone, Tawny Gold and Avocado

Here's how continuous-cleaning works for you: A special coating on the oven assists in removing grease and splatters. Since there is no special cleaning cycle, the oven is cleaning itself continuously while you cook. During normal baking most splatters will disappear. For best results, you should wipe up major spills by hand. Racks and windows should also be cleaned by hand
