## IN MEMORIAM

Sometimes the shadows gather  
And the clouds are in the sky,  
Sometimes we cannot see the sun  
For the tears are in our eyes.  
But always in the darkness  
We are under God's great hand,  
And in his fragrant garden  
We will meet and understand.  
In loving memory of Sister Vera Willard, be it resolved that Mt. Heart Rebekah Lodge No. 243 extend love and sympathy to the family.  
Resolved, that a copy of these resolutions be sent to the bereaved family; also that a copy be spread on the records of our Lodge.  
Also, be it resolved that the charter of this Lodge be veiled in mourning for a period of thirty days.

## 4-H Activities

The Vernonia 4-H Livestock Club met on February 6 at the Tom Budge residence. We discussed old business and then new business. We then split up into groups, gave out pins and more records and explained them.  
February 26 we met at the Scout cabin for demonstrations.

On March 2, the 4-H horse club had a meeting at the home of Mrs. Pitt. We talked about taking part in horse shows and then Donna Willard and Donna Shinn gave demonstrations to the group.  
Dawn Bernardi was elected official caller for the club, to call all members for meetings, etc.  
Kathi Wilcoxon Club Reporter

To increase wildlife populations, early American Indians in the East used to set fire to vast areas of forest land to create clearings where the food needed by wildlife could grow.

## Wrights Visit At Hospital

## Scholarship Plan Will Be Continued

General Motors will continue its Scholarship Plan for the Fall of 1974, the twentieth year of the plan.

Scholarships will be awarded by 123 participating colleges and universities to 153 outstanding high school graduates. The awards will be made to entering freshmen and may be renewed through the normal undergraduate years.

The University of Oregon is a participating institution and currently has two GM scholarship recipients enrolled.

Of the institutions awarding scholarships in 1974, 72 are private and 51 are public institutions.

Scholarship committees of the participating institutions review a student applicant's secondary school records, available entrance test scores, participation in extra-curricular activities, and leadership traits. Institutions have full discretion in the allocation of GM scholarships but have been requested to give preference to those applicants who look forward to careers in industry.

Stipends range from \$200 to \$2,000 per year, depending on demonstrated need.

GM scholars must be citizens of the United States.

Interested students should see their high school principals or counselors for a complete listing of participating colleges, then apply directly to the institutions of their choice. No GM application is necessary.

## Easter Seals Provide Aid

An estimated 600,000 Oregonians will receive Easter Seals in the mail during the next few days.

Hal Laman, Portland business executive and president of the Easter Seal Society for Crippled Children and Adults of Oregon, expressed hope that the "people of the state will respond generously."

Laman pointed out that the sale of Easter Seals is the society's principal source of revenue for financing such society projects as:

1. Children's Hospital school in Eugene, where youngsters from various parts of Oregon receive occupational, physical and speech therapy as well as the three R's. The school also has a learning disabilities center for children with perception problems.

2. Camp Easter Seal, a summer camp on the Oregon Coast, near Reedsport, which accommodated 156 campers last year, 82 of whom were in wheelchairs.

3. Five mobile therapy clinics which travel all areas of Oregon offering physical therapy treatments prescribed by physicians.

4. An equipment loan pool that includes 900 wheelchairs, 350 walkers and 250 miscellaneous pieces ranging from crutches to hydraulic lifters. Over 1,600 persons were aided last year.

5. A speech and hearing center for pre-school children in Grants Pass.

## School Bus Survey Covers Fatalities

A school bus survey was taken for the years of 1970, '71 and '72, of the fatalities occurring in the unloading and loading area of the buses.

More occurred going home from school than going to school or on activity trips, all three years. In 1970 and '71 more female children were killed than male children but in 1972 more male children were killed. The highest number of fatalities runs in the 5-8 year-old group.

Total deaths have been on a decrease for the last three years with 1970 having 75 deaths, 1971 having 62, and 1972 having 58. This survey covered all 50 states and Washington D.C. but only 26 states reported fatalities.

This survey covered fatalities only, not injuries, and no information was given on 1973. This data was compiled by Harold Pellegrino, Asst. Director of Highway Safety, Kansas Highway Commission.
