Among the demonstration of classes to be offered will be one on fishing by the president of Trout Unlimited, a demonstration of stitching, bicycle repair, cake decorating, and cones and pod creations.

Traffic Deaths on Rise During August

Eighty-eight people were killed in Oregon traffic during August. It was the second highest toll ever recorded for a single month in the state, surpassed only by August, 1971, when 96 were killed. The Motor Vehicles Division reported Tuesday that 437 people were killed in Oregon during the first eight months of the year, three more than for the comparable period a year ago. The division said approximately half of the fatalities during August occurred during weekend periods, with the worst weekend accounting for 21 of the deaths. The Vernonia Extension will hold their first meeting of the year on Thursday September 19 at 10:30 a.m. at the West Oregon Electric bldg. They will be working on the project that was slated in the May meeting. "Please bring materials and if you found something new and different over the summer months bring them," the group advises. There will be a potluck luncheon and anyone is welcome to come.
