Parks in New York.
The State of New York is very well supplied with parks. In his recent message Governor Hughes said: "The State's total holdings in the Adirondack and Catskill mountains now amount to 1,641,523 acres, of which 1,549,549 acres were required during the year. The area of the proposed Adirondack Park is 3,313,564 acres, and that of the proposed Catskill Park is 612,120 acres, making a total of 3,89, own 44 acres.

When it is completed the Adirondack Park will be larger than the Yellowstone, which has 2,142,170 acres.

SOMETHING FOR EVERYBODY

The wind gauge on shipboard registers up to 105 miles an hour, which is as much speed as anyone expects.

A discarded automobile tire makes a good life preserver. Its buoyancy is sufficient to keep several persons afloat.

According to the United States census tables, based on the present growth, the population of New York City will be 9,000,000 in 1930. Manhattan island will then have 4,000,000.

Slam has adopted the gold standard, which really was promulgated in 1908, and henceforth the unit of the Siamese monetary system will have a value equal to 55.8 centigrams of pure gold.

Baltimore's school board has under consideration the question of allowing corporal punishment in the public schools. The subject has been referred to a committee, to confer with the teachers.

Portuguese gardeners at Punta Delgada, on St. Michaels, Azores, are getting rich raising fine pineapples under glass for the New York market. They are the biggest and best that reach that town.

The cup of St. Jacques, which, in New York, is a dessert of delight, with its peaches, cherries, pineapple, orange and citron en compote in delicate ices, becomes in Paris a wretched compound of sliced sour apple in mushy snow.

French lights are the best along the shores, say the navigators. They are posted low, close to the water line, and so do not mislead like the Italian pharos perched high above the sea. They have the best lenses and are always visible.

The project for building a new iron railway bridge across the Neva in St. Petersburg has now been worked out, and the bridge is to be begun without delay. The bridge will be of an extremely simple pattern, and its length is to be 1,750 feet.

The last statement of the interest-bearing debt of the United States makes the total \$87,253,990, while the gross bonded indebtedness of New York City at its last statement was \$905,260,115. The metropolis is carrying \$8,006,125 more than the nation.

There has recently been launched at Bath, Me., the largest wooden vessel ever built in the United States. The Wyoming, as she has been named, is a six-masted schooner of 3,730 gross tons, with a total length over all of 350 feet. Next to her in size among wooden vessels is the William L. Douglas, with a gross tonnage of 3,708.

Sausage is served as an adjunct to roast chicken on the London & Great Western dining cars. It rather resembles a frankfurter in flavor and texture. The dining car service is diligent and well-meaning and the food is simple and plain. The car itself has about the same aspect of luxury as an American freight caboose.

The common law of England is an ancient collection of unwritten maxims and customs of British, Saxon and Danish origin, which, by long use and approval, have become fundamental in English jurisprudence. Many of the principles of the English common law hold in this country, and throughout the English-speaking world as well.

As to the name Smith, a correspondent of the London Chronicle points out that while there are now about 350,000 members of the great family in England alone, in Old Testament times, according to the first book of Samuel, "there was no Smith throughout the land of Israel." This verse the late Bishop Wilberforce said was the hardest one in the Bible to quote without smiling.

Just before the American fleet left for its famous trip around the world there was some newspaper talk of a possible clash with Japan. The yarn goes that a highly placed person asked Admiral Schroeder what he would do if the Japanese fired on his ship. Schroeder sniffed. "They won't fire on my ship," said he, positively. "But if they did?" "Now," said Schroeder, angrily, "if they did, hey? What the dickens do you think I'd do? Sue 'em?"

"Love your wife like your soul, and beat her like your carpet." This is a Russian proverb. Another of the same spirit: "Not long hurt the bumps from a loved one's thumps." Wives have undoubtedly been subjected to much ill-treatment in Russia, where most husbands have always held to the opinion that "Liberty spoils a good wife." Some Russian proverbs are cynical as to the delights of matrimony, and most married men know how to say: "Wed once, wail always."

Not being in sympathy with certain actions of the hereditary branch of the British Parliament, the London Chronicle has been speculating on the possible future of the word "lord." "So far it has resisted the democratization that has befallen 'lady'; no one talks of 'chorus lords,' or begins a speech with 'Ladies and lords!' In modern Greek, however, 'lordos' means simply 'Mr.' and it would be rash to predict that our descendants will not all be 'lords' in the twenty-first century."

The fiction of a constant bee—that is, of a bee which keeps to one species of flower on a single journey—dies hard. Thus the writer of a note in the Field on "Bees, Flowers and Fruit" says: "The same bee passes from one to the other colored varieties of the same species, though rarely, if ever, visiting other species of similar color. . . . It is probable that bees discriminate between flowers in this fashion, as the keeping qualities of the nectar might be interfered with if the loads from different species were mixed."

Stomach Ills May Seem Trifles

At the start, but that is when you want to take the matter in hand. Neglect can only result the one way—sickness. The stomach is largely responsible for one's health and strength and as such it needs to be kept in a normal condition. If it becomes weak, the food remains undigested, ferments and causes untold suffering. Thus you lose the strength-giving properties of your food and you become weak and run down. This is very noticeable at the beginning of Spring when the system is overloaded with Winter impurities, the bowels clogged and the blood thick. No wonder you have the "Spring Fever." Commence taking Hostetter's Stomach Bitters this very day and cleanse the entire system. Then your Stomach Ills will also vanish. It is for Sick Headache, Indigestion, Dyspepsia, Spring Fever, General Debility and Malaria.

PISO'S

KASPARILLA

This sterling household remedy has long been recognized as the best and safest Blood Purifier, the most successful prescription for spring humors and such disorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be the best remedy for that lack of energy and the peculiar debility so prevalent during the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.

The Youngest Admiral.
Captain David Beatty will shortly have the distinction of being the youngest rear-admiral in the British navy. His forthcoming promotion at the early age of thirty-eight has been the subject of a special Order in Council.

To qualify for promotion under the regulations a captain must have served during peace time for a total period of six years. The Admiralty petition sets forth that, owing to the abnormal shortening of the time on the captains' list, it is anticipated that Captain Beatty will reach his turn for promotion before he completes the full period of six years.

It is also pointed out that he was severely wounded in action in China, and was consequently prevented from receiving an appointment for a considerable period.

In these circumstances the Order directs that Captain Beatty shall be promoted to flag rank in his turn, notwithstanding the regulations.

Captain Beatty is an Irishman. His wife is a daughter of an American millionaire, the late Marshall Field, founder of the great dry goods store in Chicago.

Nelson was promoted to the rank of rear-admiral in his thirty-ninth year.
