How about your winter COAL

There is liable to be a strike September 1 when the re-adjustment of the wage scale is brought up between the miners and the operators.

We would advise everyone to lay in their winter's coal before August 15th.

Rock Springs Coal \$7.50 per Ton

There are a number of Eastern Oregon men out for nomination on the state ticket and in these men we find men that are competent and have Eastern Oregon uppermost in their minds. These are good qualities and should be recognized by the voters. Eastern Oregon has never had its share of state officials for some reason and it is time that she had hers. Of course not all the good men live in this section as on the western side of the mountains there are a number of men that deserves the support of every true American.

On the 24th of September the voters of this state will go to the polls and say who their standard bearers are to be and who is the choice of the party and the people also. Just because a few of the politicians of the state got together and nominated a ticket is no sign that this ticket is the choice of the people. What is needed or wanted more than good reliable men to become the servants of the people in this and every state? We need men that are competent to handle the affairs of state and that will always remember the interests of the people and do the things that will advance these interests and do it in such a way that their integrity will not or can not be questioned. Everyone should study the qualifications of the men that are the aspirants to office and decide for himself who is the right man for the right place. It is also the duty of every voter to go to the polls and say who he thinks is the man. There are men who are continually kicking the officers and when they are asked, "Did you vote or take any part in securing a better official?" 75 per cent of these grumblers will say, "haven't voted for—years and don't expect to again. If you don't vote don't kick about the men that the other fellows put in office."

The republican bosses in Oregon are seeking to nullify the direct primary law by holding an assembly in selecting candidates before the primaries are held. The reason they do this is because these self-appointed bosses are sure the people would not nominate any of them. The people of Oregon are too advanced along the road of independent action guaranteed by their primary law to be side tracked by a few professional politicians. It is hard for

these old fogies in politics to give up the reins and let the people do the driving. The state of Oregon was boss ridden for many years, but since the direct primary law has been in effect the common voters have been doing their own thinking and also under their excellent ballot law have been doing their own voting. Weiser American.

Have you registered? It is time you were doing so if you intend to vote at the primary in September. Sanford Emison is the registration officer for Nyssa precinct.

Dalton Biggs is after the district judgeship. Altno he is a democrat he is a good fellow and will make Judge Davis sit up.

Former Governor Folk of Missouri says: "If Republicans consider themselves bound under party discipline to support the men nominated at the assembly, then the effect would be bad, as there would be then virtually a return to the old convention idea." —Malheur Enterprise.
