The football season will revert, and the center rush will paw the dirt. He'll wake the natives with his roar, and bawl for victory and gore. The piled up dying and the dead will mass against his butting head, and he'll spin the planet in his rage just like a squirrel in his cage.

Alas for those who calmly sit devising to denature it, and all the college renegades who think to temper it for maids; The students and the teachers howl, and the rooters and the bleachers yowl, and demand he who does not rise and kill somebody twice his size.

The aeroplanes will cruise the air above the old-time county fair, and the lucky winner will be he who wins the best two falls in three. The farmer in his limousine will tool around upon the green, and the hired man will seize the chance to wear his other pair of pants.

The 418th anniversary of the discovery of America by Christopher Columbus will be celebrated on the night of the 14th by the seven Guggenheim brothers.

Mr. Roosevelt will be stage manager again this month. The villain will be the Demon Rum. Mr. Bryan will be the father of the stolen child, and Mr. Cannon, who made the password Hell last month, will change it to read Hell-p!

And then November will return With cold and chilly draft And the wild goose going down the line With Winter biting aft.

Ladies—We have an unusually attractive chance for a bright, energetic woman, well and favorably known in this community. For details address, enclosing stamped self addressed envelope to Manager, Lock Box 750, St. Louis, Mo.

October is from the Latin octo, meaning eight, and it was formerly the eighth month of the year. This brought the foot ball season around at a time when there was grave danger of being suffocated before the ball was even put into play, and there was a great deal of dissatisfaction at the old Greek and Roman universities. A change was frequently talked of, but it remained for Numa Pompilius, who was one of the early friends of education, to do anything about it. In 713 B. C. he moved October along to its present place in the calendar, and now the quarterback on a football team always says before snapping the ball,

Numa, Numa,  
B. C.  
Come seven,  
One, three!

#### FORCED TO LEAVE HOME.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles, 50c and \$1.00 Trial bottle free at S F Foster.

#### A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.

#### NOTICE TO TAXPAYERS.
