### ABUSING THE INITIATIVE.

Initiative for Matters of General Interest.

"The initiative privilege is a valuable right and the people of Oregon are fortunate in the possession of the same. It is a right though that should be used with discretion. If the initiative is invoked indiscriminately it will be of injury rather than of benefit," says the Pendleton East Oregonian in its issue of July 19.

"By the nature of things the initiative should be used for the settlement of questions that are of general state interest and questions upon which the people at large are capable of judging. It was proper that the direct primary law be enacted under the initiative. The law could not have been enacted in any other way. Legislatures elected under the old convention system would never have passed the direct primary law. It was proper that the corrupt practices act be enacted under the initiative and referendum. That law pertains to political morality and the people were able to judge of the merits of the law. It is all right to settle the normal school problem under the initiative. The legislature has utterly failed to handle the question.

"But the most glaring abuse of the initiative is on the part of those who have proposed county division measures. Eight bills have been filed asking for the creation of new counties or for the changing of boundary lines. In each case the question involved is of a purely local nature; not of state interest. It will be impossible for the people of the state to judge of these measures with intelligence. All division disputes should have been held in abeyance pending the passage of a law calling for the settlement of such disputes by the people directly concerned. The county divisionists, however, have refused to wait. They have submitted their bills in hopes the people will vote blindly for them. They have abused the initiative privilege and they should be rebuked for doing so. Every county division bill should be voted down.

"Insist that the initiative be used only when it may be invoked with propriety."

County Division Increased Taxes 61.4 Per Cent. (East Oregonian.)

That county division means increased taxation for the secessionists is shown by the experience of E. A. Schiffler, the well known local tailor, who owns some property in the city of Hood River. To the East Oregonian Mr. Schiffler has exhibited his tax receipts and they show that during the first year of the existence of Hood River county Mr. Schiffler's taxes increased 61.4 per cent. His 1908 taxes which were paid in Wasco county, amounted to \$85.50. His 1909 taxes, the first levied after the creation of Hood River county and which he paid on February 14, 1910, amounted to \$138. Therefore the creation of the new county cost Mr. Schiffler the sum of \$52.50 during the first year of Hood River county's existence.

"I have always said that it is foolish to divide counties," declared Mr. Schiffler. "It only means additional expense and increased taxation."

### THE ONLY SOLUTION.

(East Oregonian, July 9.)  
Voters of Oregon will be compelled to pass upon 32 legislative measures when they vote this fall. The number is entirely too large and many of the measures are of such a nature that voters simply cannot hope to judge intelligently as to their merits.

Conspicuous in this class are the eight county division bills that have been filed. Each of these measures pertains to an issue that is strictly local in character. The people of the state at large are not interested in county division disputes. The average voter cannot hope to judge of the merits of these division bills. From one side he will be showered with literature favorable to division; from another quarter he will be implored to vote against division. Often people residing in the proposed new counties do not want division to carry.

Now what is the poor voter to do? In the view of the East Oregonian there is but one logical way to settle county division problems. All those problems should be held in abeyance until a law has been enacted leaving the settlement of such disputes to the people who are directly interested in them. It is pretty certain that such a law will be passed by the next legislature. Such a law was passed by the last legislature, but for some unknown reason was vetoed by Governor Chamberlain following the close of the session.
