DRIVERS REFUSE AGREEMENT

Offer of New Express Companies Comes to Naught.

New York, Nov. 7.—The most serious rioting that has yet marked the strike of express drivers and helpers, culminating in the shooting of a striking driver by a guard on a wagon, took place tonight, following an abrupt termination of negotiations between the men and the companies.

The situation tonight is regarded as increasingly serious, with added possibility of a sympathetic walkout throughout the city of all teamsters and allied organizations.

Peter Roach, a striking driver, the victim of today's rioting, was shot through the body during an attack by a mob on an Adams express wagon. The last rites were administered to him by a priest in a drugstore and he was hurried to a hospital, where his condition was reported critical.

John Perry, a guard on the wagon, was also injured, and according to the police, admitted the shooting. He fired after he had been hit in the face by a stone hurled by Roach. Roach denied any part in the riot.

The termination of negotiations was precipitated by a letter to Mayor Gaynor by the companies stating that the only condition upon which they would take back the strikers was by individual application not later than today.

Re-employment in their old positions at former wages was promised, "without discrimination against any of them because of having left the service."

The companies also agreed, as soon as work was resumed, to confer with their employees in an endeavor to affect a settlement of wages and hours.

These terms were rejected by the strike leaders without even formal consideration.

"Now it is a case of fight—a case of fight until we win," said W. A. Ashton, general organizer of the Teamsters' union.

With the ending of negotiations, talk among the strikers immediately centered upon a general walk-out. Such action, it was said, would call out 100,000 men.

The joint executive committee of the union, it was said tonight, will meet tomorrow to consider the matter. A meeting of chauffeurs and cabdrivers unions was also called for tomorrow.

TRAINS COLLIDE; EIGHT DEAD

Eastbound Apple Train and Westbound Freight Meet in Cut.

Spokane, Wash.—Eight are known to be dead and four known to be more or less seriously injured as a result of one of the most disastrous freight wrecks in the history of the Great Northern railroad, near Chattaroy, Wash. The wreck was the result of head-on collision around a sharp curve in a deep cut, fairly at the bottom of two steep grades. Two heavily-loaded trains running at an exceptional rate of speed combined almost every condition possible to make the impact so disastrous.

Traffic on the main line of the Great Northern will have to be suspended from 40 to 48 hours. The wreckage will hardly be removed and the line cleared before that time.

Train No. 451, running on its regular schedule, westbound, collided with the "apple extra," eastbound, running on a fast schedule of five hours between Hillyard, Wash., and Troy, Mont. Train No. 451 was loaded with paints, oils, some furniture and some livestock, much of it extremely inflammable material and considerably lighter than the apple extra, which carried, besides fruit, heavy loads of grain and furniture.

Every man of both train crews who happened to be near the front of the train is dead. One brakeman saved himself by jumping, but he is seriously injured.

The brakemen who happened to be in the rear of their trains escaped with minor injuries.

The loss in the wreck is very large. A pile of 19 cars of train No. 451, jammed into the space of an ordinary living room, caught fire immediately and were speedily reduced to a mass of tangled steel before the fire apparatus, summoned from Spokane, 21 miles away, could start a stream of water on the ruins.

Deer Lined Up for Czar.

Berlin—Emperor Nicholas "hunted" in Emperor William's new game preserve near Oranienburg, 26 miles northeast of Potsdam. A battalion of soldiers with foresters had been engaged for some days in assembling some 1,500 deer, hare and other four-footed game within an enclosure, and the animals were driven out past a line of platforms encircled by pine branches and upon which the royal party and 2 other court hunters had taken positions, ready for the killing. Emperor Nicholas had the first shot.

Mural Painter Decorates Prison.

Winsted, Conn.—Miss Genevieve Cowles, of Farmington, an artist and a relative of ex-President Roosevelt, has entered upon a year's work in the state prison at Wethersfield, decorating the walls of the chapel. Warden Garvin suggested to Miss Cowles that she undertake the task. Miss Cowles after a summer spent in Jerusalem, is now at work. She has painted in several of the figures, but the whole picture will not be completed for a year.

Loaf Must Weigh Pound.

Topoka, Kan.—The State Supreme court has decided that a loaf of bread weighs 16 ounces or it is not a loaf. John McCoat, a Leavenworth baker, was arrested because he did not label his bread when the loaves weighed less than 16 ounces. He appealed and the Supreme court affirmed the decision.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

PORTAGE NEARLY READY.

Completion of Road By End of November Expected.

The Dalles—Work has been begun by the State Portage commission on the inclines and bulkheads of the state portage road, which is to end at the foot of Washington street in this city.

The roadbed, which is built on the low-lying bank of the river north of town, is being heavily rippedraped for half a mile from the terminus, and this work is nearly finished. A pile-driver has been erected, and workmen have begun to put down the piling north of the track. On this will be nailed heavy planking to prevent the high water and waves and ice of the Columbia from tearing out the ripraping.

The bridge across Five Mile at Seufert's is nearly finished.

The only thing now holding back the completion of the road to Big Eddy is the half bridge, about 100 feet in length, which is to be built at that point to connect with the road built some time ago from Cello to Big Eddy. This work is waiting for the O. R. & N. company to shift from its old line to the new roadbed now being built. This probably will be done this week and the whole of the portage road will be completed by the end of November, so that freight will be moving over the whole length of the line before January 1.

FISH LADDERS NEED REPAIR.

Salmon Have Difficulty Ascending Celilo and Oregon City Falls.

Astoria—Secretary Lornsen, of the Columbia River Fishermen's Protective union, has received a letter from State Fish Warden Clanton, in which Mr. Lornsen is invited to go with the fish warden and make an investigation relative to the fishways needed at the Oregon City falls and at Celilo.

A fish way was constructed some years ago at Oregon City, but it does not appear to give satisfaction in its present condition, and on a recent visit there Mr. Lornsen counted 40 salmon which had perished while trying to get over the falls. However, it is stated that a small amount of work will place the fish way in condition to afford an easy passage way for the fish to the upper river.

At Celilo the condition is much more complicated, and it may be necessary to blast a fish way out of the solid rock, so that a few at least of the early salmon, which reach that point, may be able to ascend to the natural spawning grounds.

REALTY DEALS FREQUENT.

Farm Land About Medford Brings More than \$1,000 An Acre.

Medford—City real estate in Medford is moving lively. W. T. York & Co. report 13 sales of city lots and small tracts of land in the vicinity of Medford in four days. Forty-one acres of orchard land in the Willow Springs district were sold for \$45,000. Frank Tompkins purchasing the ranch from A. T. Remuels. W. A. Stone, of Vermont, bought 35.55 acres between Medford and Jacksonville for \$18,000, and lot 12 of the Midway tract sold for \$3,300.

Siskiyou Heights and Queen addition are being boosted vigorously by real estate firms with the result that many lots in both suburban districts have changed hands, most of the lots being sold to newcomers who expect to build immediately. Twelve building permits for homes were taken out in one day.

Rebuild Burned Town of Wendling.

Wendling—Contracts for buildings to cost \$15,000 have just been let. Sixteen small cottages, eight larger cottages and a public school building are included in the contract.

W. B. Mumme was awarded the contract to build the 16 small cottages. Buley & Applewhite got the eight larger cottages and J. R. Chezem the public school building. Each of the contractors will at once begin work and expect to have the buildings completed before the heavy rains set in.

In addition to these buildings, there are in course of construction for the company six cottages that are still larger than any of the others, costing \$1,000 each, the lodging house costing about \$6,000 and the eating house costing \$3,200. These buildings are all to replace those destroyed in the recent forest fire that swept the town.

Pure Water For Eugene.

Eugene—The city of Eugene will soon have water 99 per cent pure. This is the guarantee of the installers of the large filtering plant, which will be in operation in a few weeks. The plant is similar to the Oregon City filtering plant, which has given such good satisfaction. City and university authorities feel confident that with the new filtering plant in operation there can be no serious danger of a typhoid epidemic, such as four years ago.

Oregon Chinese Gets Scholarship.

An ex-employee of Oregon student, Lee Sam, '13, a Chinaman, has just won a scholarship at Cornell university, New York, by competitive examination. Sam is a civil engineering student.

FESTIVAL DATE SET.

Portland's 1911 Flower Show Will Be June 5 to 10.

Portland—The Fifth Annual Rose Festival will be held during the week beginning June 5, 1911.

This decision has been reached by the executive committee of the Rose Festival. The second week of June was accepted as being the logical and natural one for finding the "Queen of Flowers" at her best.

Deference in the selection of dates was made to the Portland Rose Society which holds its annual rose exposition so that the show features of the exposition might be properly and fittingly timed with the mid-season of rose blooms.

Next year, the grand celebration which has made Portland famous throughout the country will be prepared on a scale of greater magnificence and elaborateness than any of those that have gone before. It is to be the only great exposition held on the Pacific Coast in 1911. None of the big cities on the Sunset slope has devised any sort of entertainment that will prove an attraction to the transcontinental tourist traffic for next year that will in any sense compare with the Rose festival of Portland.

This situation has made strong appeal to the great railroad trunk lines of the country and they have already asked their representatives in the Northwest and on the Pacific Coast to make full cognizance of the fact and make reports on the matter in full and as soon as possible.

Oklahoman Buys Land.

The Dalles—Through a recent real estate transfer, Dr. Bowling, of Oklahoma, purchased two tracts of real estate. One was bought a few months ago from John Boyd, a Kentucky man who came here three months ago. He cleared more than 100 per cent on his investment. The other was 18 acres two-miles out of the city on the Mill Creek road. Dr. Bowling paid \$450 an acre for 12 acres with cherry and peach orchards in bearing.

Timber Tract Sold.

Astoria—An agreement was filed for record whereby the Western Cooperative company buys a tract of timber land from Austin Osburn and W. R. Chisholm for \$16,000. The property is in sections 25, 30 and 31, township 7 north, range 8 west, and is in the Clatskanie river district, where the Astoria Southern Railway company is constructing its line of railroad.

FIRST BLIZZARD HITS EAST.

Snow, Sleet and High Winds Tie Up Atlantic Coast.

New York—Rushing in from the ocean, one of the heaviest fall blizzards of years struck the Atlantic seaboard, piling snow and sleet upon New York, Philadelphia, Baltimore, Washington and intermediate points, tearing down telegraph and telephone wires and delaying trains.

The entire coast north of Baltimore is covered with a thick blanket of soggy, wet snow. Telegraph wires were broken down so badly by the sleet that the telegraph companies reported that they were getting commercial messages through only at a great effort and at a cost of considerable delay.

The storm was the most severe about Baltimore and Washington, all wires being reported down between these two cities. In Eastern Pennsylvania communication with Chicago could be obtained only by way of Boston. Trains were delayed everywhere and some of the trolley lines had to give up all attempts at maintaining regular schedules.

Washington communicated only intermittently with the rest of the world. Wires were blown in all directions by a whirling mixture of snow and rain, which swept over the city all night. There is no communication whatever between the national capital and points to the north, and in other directions wire service is almost at a stand.

CHINESE CUTS HIS QUEUE.

Walla Walla Orientals Obeying Order of Far-Off Emperor.

Walla Walla—Obeying the command of his emperor, miles away across the seas, Shoo Fly, the best known Chinaman in the Walla Walla valley, has cut off his queue. For 40 years he has worn his glossy braid, sometime swinging behind him as he walked, but more often coiled tightly about his head. The example set by Shoo Fly is being followed by others of the Chinese here, and it is said that only a few of the picturesque head dressings remain in the city. All are to go, say those who can talk English, and while not all have complied with the order, which permits the cutting of the hair, all are expected to do so as soon as they become a little more used to the custom. Walla Walla has a large Chinese quarter, owing to the many gardens near here, and meetings discussing the newest edict have been frequently held of late. By popular decision, the Chinamen, most of whom are becoming quite modernized, have decided to drop the ancient custom.

PARLIAMENT IS CALLED.

Chinese Emperor Issues Decree For 1913 Meeting.

Peking—An official decree was issued announcing that an imperial parliament, the first in the history of China, would be convened in 1913.

This is a concession to the demands of the recently constituted senate and delegations of the provincial assemblies. The program fixed by the late empress dowager provided for the assembling of an imperial parliament in 1915, but until recently the throne had refused to entertain petitions praying that the date be advanced. The decree sets forth that the parliament will be convened in three years.

The police went from house to house informing the occupants of the edict. Presently the dragon banner and paper lanterns appeared above every door. Beyond this there was no public manifestation over the momentous news.

Women On Strike March.

Chicago—Led by a throng of women singing the "Marseillaise," several thousand striking garment workers paraded through the North Side factory district. The marchers visited each of the "open shops" in this section and shouted derisively at non-union workers and strikebreakers. Several attempts at disorder were quelled by the police, who made a number of arrests.

Mrs. Raymond Robina, president of the Women's Trade Union league, said that the striking women are anxious to submit their grievances to arbitration and that she believed the strike would be settled within a few days.

Religious Orders Banned.

Madrid—The senate as passed by a vote of 149 to 58, the "padlock" bill, which prohibits the creation of further religious establishments in Spain until the revision of the concordat with the Vatican has been completed. The conciliatory attitude of Premier Canalejas toward the ecclesiastical senators during the debate led to the impression in official circles that a way would be found to resume negotiations between the government and the Vatican for a revision of the concordat.

Theaters May Be Halted.

Chicago—With the purpose of forcing the owners and managers themselves to banish ticket scalpers from Chicago, the license committee of the city council recommended an ordinance closing all theaters and amusement places on Sunday. The committee will urge that the ordinance be enforced until theaters have permanently broken with the scalpers, and the measure is to be used as a club to keep the theaters in line.

Yellow Fever Found at Honolulu.

Honolulu—The first case of yellow fever ever known in this port has been discovered aboard the Japanese liner Hongkong Maru, which arrived here October 30 from Manzanillo, Mexico. The steamer is held in quarantine.

16 INJURED IN STRIKE RIOTS

Chicago Garment Workers Assist and Police Chase

One Officer Stabbed and Trampled and Beaten—Old Girl Is Leader.

Chicago, Nov. 3.—Grim the days of the Haymarket haunted Chicago's streets time late this afternoon, as a mob of strikers, led by a woman with drawn revolver, and a squad of men with drawn revolvers, several thousand striking workers who were rioting on Side.

One policeman was stabbed, others were seriously injured and sympathizers were during the fight, which threatened to get beyond police control.

This, the most serious riot since the inception of the strike, occurred at the plant of A. L. Before the police arrived, the mob had broken all the windows of a large building occupied by the manufacturers, had driven strikers out and had carried a large number of sewing machines into the streets where they were destroyed.

The strikers and their followers up a desperate fight. Many were knocked down by the revolvers of the police and many were trampled upon. Some of the ployes of the company joined the mob and are said to have been pulling machines from the floors.

Men and women were hurling bricks through the windows of the plant when Inspector Healy and his band of reserves arrived. Healy'spector found difficulty in getting together the disorganized forces of men which had borne the brunt of earlier fighting. When he saw, however, the policemen coming through the center of the mob, they were all in their way.

Many of the rioters fled when saw the policemen draw their clubs and stones at the approach of officers.

The attitude of the police that much more serious trouble anticipated within the next 24 hours. All preparations are being made hastily calling in the reserve outlying stations and mobilizing a large force in the downtown district.

Strikers tonight held a dozen attended meetings on the north side and, also down town, feeling at these meetings that the agitators urged the strikers to their disorder. Meanwhile, the clubwomen who have interested themselves in the cause of the girls workers were urging their fellow strikers to refrain from any action which might injure their cause.

The strike is not for an immediate wage, but for the principle of equal bargaining, as the strikers demand for recognition of their union.

Josie Milewski, 14 years old, of the most serious riots when a tack was made on the shops of Nathan & Fisher. She and a number of others were arrested.

The strikers, numbering about 400, had broken several windows and conquered the guard around the when the police arrived. At the charge from the police, the girls to have shouted: "Get together, charge the police. Get them 'em."

The strikers responded to and attacked the bluecoats. They used their clubs and scattered Josie and a youth named Frank fought to the last, continuing resistance even in the patrol wagon.
