The Malheur Enterprise came out Christmas week with a very pretty face and several pages well filled with stories of the resources of this county for the body. The Enterprise is certainly a booster for Malheur County as well as for Vale.

Skating is the popular past time for the young folks of this place at present. The ice is in fine shape and it being free from snow makes skating more of a pleasure than if the snow was covering it. The numerous lakes in this neighborhood gives an opportunity to have the sport without traveling for miles to get it.

Evidently the prohibitionists don't know where they are as we are in receipt of a circular letter saying that the liquor men are going to take everything in sight. Well that is what they wanted to do but the Wets beat them at it. The Home Rule fight promises to be a warm one as well as an expensive one for both sides.

The Oregon Short Line is again sending out a Farmers' Industrial and Educational train for the benefit of those interested in farm husbandry. It will be remembered that the one that was here last year gave us a great deal of information along fruit and vegetable raising lines, as well as the soil and climate talk that interested everyone that heard it. The value of these trains is not appreciated by those most directly interested as was shown here last year but it is hoped that everyone that possibly can attend this train meeting should. The expense is born entirely by the railroad company and there is no admission fee. The train is sent to Nyssa for your benefit and it is up to you to get all the good you can out of the short stay. The speakers on this train are men of experience and who have given the subject upon which they are going to talk years of thought and time, so be there to receive the talk and pick the kernels of their experience.

The Oregon law makers will go to work next Monday morning bright and early. This honorable body has a very hard task before it in the way of putting through the things that is expected of it. The Joint Representative, Hon. W. H. Brooke, has a few things up his sleeve for the eastern section of the state and he will see that he gets what he goes after. He has worked for several weeks preparing a bill as an amendment to the Drainage and Irrigation law of Oregon, and knowing the necessities of such a law, he will be able to get one that will be of much benefit to the irrigation districts of the state as well as one that is as near perfect as one could be. He has several good things besides this for Eastern Oregon and will do all in his power to get them for they are of real benefit to this section.

WHY NOT BE SAFE

A few weeks ago a cracksman entered the Bank of Jefferson, Oklahoma, and smashed up the vault safe with Nitroglycerin and obtained the banks money. This could not possibly happen with the Bank of Nyssa. The vault is protected by the latest Electric Burglar Alarm that can be heard all over town. Inside the vault you can not even touch it with a pin without turning an alarm that can be heard all over town. Inside the vault you have a steel money safe that would require hours of work with high pressure to enter.

Your money is safe if it is in the Bank of Nyssa. Make our Bank Your Bank.
