POINTS IN PIGEON RAISING

Young Bird, Unlike a Chick, Cannot Feed Itself, but Must Be Fed by One of Parents.

A young pigeon, unlike a young chicken, cannot feed itself, but must be fed by the old bird.

Very often squabs do not leave the nest until they are a month old and ready for the market.

Sometimes the old bird will favor one of their offspring and feed it continually, allowing the others to go hungry much of the time. It is not unusual to see one large, plump bird and a half-starved, puny one in the same nest, both having been hatched at the same time.

The male bird sits on the nest at night and the female in the daytime. Some dealers say that this is the only true test of mating.

An old Pennsylvania breeder says that a sure test of sex is to take the bird by the bill and draw it down to the ground. If the bird's tail fits upward it is a male; if downward it is a female.

Vermis is a constant menace to pigeons and must be always fought. Frequent white-washing, absolute cleanliness and tobacco stems placed in the nests will generally keep the birds reasonably clean.

Making All Happy.

"What I deem an appropriate present is a book, and that I must choose for myself," writes a correspondent of the London Chronicle. "To leave the selection to friends would be a catastrophe. Every year, therefore, on behalf of those generously minded individuals who have kindly thoughts toward me, I buy books for myself, tell them, and get the money refunded. And in the measure of monetary value they remember me, I likewise remember them—in any article of their own choosing. And we are all happy."

Water in bluing is adulteration. Glass and water make liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow.

Changing Nature Indirectly.

You are constantly assured that you cannot change human nature; that you cannot make people over by process of law. But if you cannot reform men by reforming the conditions that make men what they are, how is it that you can so easily debauch and degrade them by reversing the process?—Collier's Weekly.

Dickens' New Year's Wish.
So may the New Year be a happy one for you, happy to many more whose happiness depends on you; so may each year be happier than the last.—Charles Dickens.

True to Nature.

The tots in a primary class in sense-training were imitating anything they choose. When it was Hazel's turn, she stepped into the center of the room and wriggled her body from side to side. No one could guess what she was impersonating, so she was asked to explain. "Why," she said, "I was a little doe waddling its tail."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children's teething period.

Why Snow is Warm.

Snow is warm by virtue of its light and woolly texture. But it is also warm on account of its whiteness. Had snow been black it would have absorbed the heat of the sun and melted quickly. Instead, it reflects heat, and the reflected heat falls upon bodies above the snow, while the warmth of the earth is preserved beneath it.

EX-OIL MAGNATE BROKEN DOWN

Throat Trouble Overcomes Him While Testifying.

Money Trust Investigators Gain Little by Following Financier to Southern Retreat.

Jekyl Island, Ga.—A spasm of the throat that left William Rockefeller a straggling, trembling old man, on the verge of nervous collapse, abruptly terminated his examination by Chairman Pujo and Counsel Samuel Untermyer, of the house money trust committee, here.

Mr. Rockefeller was asked just four questions, all practically immaterial, before the attack forced the conclusion of the hearing. The aged Standard Oil magnate was closeted with the committeemen for only 12 minutes. At the end of the time he was assisted to his couch by Dr. Walter F. Chappelle, his physician, who declared his patient exhausted.

In Mr. Rockefeller's apartment in the Sans Souci Club, on the isolated island occupied by that exclusive millionaires' club, the 72-year-old Standard Oil magnate submitted to the questions. There ended the six months' search of the government process servers, who sought the reluctant witness from New York to the Bahamas and who laid siege to his New York home.

The net result of the examination, so far as the money trust investigation was concerned, added practically nothing of value to the record.

UNITED STATES CAN LEARN

American Officer, Home From Far East, Draws Conclusions.

Washington, D. C.—Major Munroe McFarland, Twenty-ninth United States Infantry, has arrived in New York after nearly three months of special duty at the scene of the war in the Near East.

Although Major McFarland had ample credentials, the Bulgarian army did not recognize them to the extent of permitting him to go anywhere near the battles. He took a horseback ride from Belgrade down through Macedonia to Salonika. He visited Kumanova and Monastir and studied the organization, tactics and methods of entrenchment used by the Serbian and Bulgarian armies.

The Major thinks that the present fighting will not amount to much and that the war will soon be over. Although his position disqualified him from expressing an opinion as to who would be the victor, he said that his study had shown him that the American army can learn much from the work that has been done in actual warfare by the armies of the allies.

Women Manage Apple Sale.

Chicago—Club women who recently conducted an egg sale went into the apple business and it was announced that about 30,000 barrels had been disposed of. The sale will continue.

The apples were on sale in about half the grocery stores of Chicago. No money was invested by the women, but they arranged the buying and selling prices and took orders for apples. In only a few cases were inferior goods offered or prices higher than those agreed to be asked.

Apples were sold at less than the price which has been asked for them by retail dealers in the last few weeks. Many apples are said to be in cold storage awaiting a rise in prices and it was this condition which caused the women to start the sales.

Turks Report No Reverses.

Constantinople—An official dispatch issued here says: "The enemy continues its movements along the Tchalja lines. Several encounters have occurred during these operations, all of them ending in the retirement of the enemy. An engagement near Palasia developed into a somewhat severe battle. The warship Idjalisos bombarded the enemy from Biyuk Chekmoody, on the Sea of Marmora. The bombardment of Adrianople continues night and day, but the damage is unimportant."

Roumania Will Negotiate.

Bucharest, Roumania—The Roumanian government has instructed its minister to Bulgaria to arrange a resumption of the negotiations between the two countries in regard to Roumania's territorial claims. The Roumanian minister will urge on Bulgaria the necessity of bringing the matter to a speedy conclusion. The Roumanian claim is to a strip of territory which will extend her coast line on the Black Sea.

Dollar Goes Unwrapped.

St. Louis—A silver dollar sent by parcel post was received at the St. Louis postoffice. The stamp was placed on one side of the coin and the address, written on a piece of paper, was glued on the other side. The dollar was sent by M. L. Addington, of Yukon, Okla., to his 5-year-old daughter, who is visiting here.

WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Forest Fires.

One point must be observed: Stop every fire! Unless this is done forest management is useless, forest planting a foolish waste and forest conservation impossible. The surface fire that is so often run through a woodlot to burn the leaves, to kill the undergrowth, to prevent more serious fires, or for any reason imaginable, must not be tolerated. Such fires rob the growing trees of their natural fertilizer, the falling leaves and decaying vegetation, they injure the roots and the bases of the trees, they kill the seedlings and the sprouts from which the succeeding forest must come. Even a camp fire is bad unless it be built in an open place, not against the base of a tree, carefully guarded and completely extinguished before it is left. Forest fires are fatal to every principle in

Worth Knowing.

Never throw away pieces of lemon after they have been squeezed with the lemon squeezer, for they come in handy for removing stains from the hands and elsewhere. Dipped into salt they will scour copper kettles nicely and remove stains from brasswork. Lemon like this will take stains, dirt and odor from pans and kettles as nothing else will. The odors of fish and onions can thus be easily removed.

Natural Question.

"I am so very fond of music," said Miss Kittish, as she swung herself round on the piano stool and faced Mr. Harkins, after thrumming away for half an hour for his entertainment. "Ah!" replied the young gentleman thoughtlessly. "Why don't you take lessons?"—Stray Stories.

MUSIC Taught Free HOME INSTRUCTION

We want to advertise and introduce our home study music lessons into all parts of America, and will give you absolutely free instruction if you will simply recommend the International Institute to your friends after you learn to play.

We can teach Piano, Organ, Violin, Mandolin, Guitar, Banjo, Brass Instruments, Cello and Double Bass. You may not know one note from another, but by our wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive special instruction.

Our lessons are sent weekly. They are so simple and easy that they are recommended by any person or family who can read music. Photographs and drawings make everything plain.

If you accept our free tuition offer you will be asked to pay only a very small amount (notwithstanding 14 cents a week) to cover postage and necessary sheet music. We have exceptionally talented teachers and we can successfully teach you.

Write today for our FREE booklet, which explains everything. It will convince you and cost you nothing.
