

Always Making Friends

Is the fortunate experience of Hood's Sarsaparilla. Whole neighborhoods love and praise it for the cures it has made. "I know by experience that Hood's Sarsaparilla is a grand, good medicine. I am more glad in taking it than its proprietors are in selling it. In malaria and loss of appetite it drove out the chills, gave me a good appetite and digestion. For twenty years I have known and used it, so I call it a good old reliable family medicine. We recommend it to all our friends." James Johnson, 551 E. Indiana Avenue, Philadelphia, Pa.

Three Babies Walked Fifteen Miles.

Three children—Ida Farrow, eight years old, Willie Farrow, five, and Linda Benton, six, of Petersburg—walked 15 miles to see their grandmother. The children, who undertook the journey unknown to their parents, arrived exhausted, and after being fed and rested were driven home again.—London Mail.

WHITE PLAGUE IS NOT CURED

Friedmann's New York Patients Worse Than Before.

Health Department Makes Strong Criticisms and Public Warned to Be Careful.

New York—The Friedmann patients in New York are not doing well. In fact, some of them are decidedly ill. This fact, combined with a knowledge of the nature of the sale Friedmann has recently accomplished, has made all physicians connected with the Friedmann tests anxious not only for their own patients, but for the welfare of the public in general.

Before the week is out it is most probable that three, and perhaps four, public statements will be made from public institutions, none of which will be favorable to Dr. Friedmann or his treatment.

This information has been placed in the hands of the New York health department, telling of the poor showing which the Friedmann patients, all of whom have been watched for the department, have made.

The statements made are strong. One of them is supposed to be that some of the cases treated would have been better off if they had not had the Friedmann injection and that the presence of the culture in their systems seems to have given the bacilli a chance to work in places which they might not otherwise have attacked.

It was learned Monday from the best of sources that the Friedmann patients at Bellevue have not only failed to show any improvement, but that with many of them the disease was having its course uninterrupted. Many of the pulmonary sufferers treated by Dr. Friedmann at first showed gains, such as increased weight, but have since fallen back. Actual conditions of the lungs have either remained the same or become worse. Only one case was mentioned in which the lungs had improved, and that in an incipient stage.

It was also said that at Mount Sinai hospital the patients have not made progress and that the disease is running its own course. The same is understood to apply to the Montefiore Home, where Dr. Friedmann also treated a great number of tubercular sick.

FARMS WILL NEED 40,000 MEN

Prospective Wheat Crop in Kansas Largest Ever Known.

Topeka, Kansas—Facing the prospect of a wheat crop of more than 120,000,000 bushels, the lowest estimate based on Secretary Coburn's report of acreage and condition, the State Employment bureau already has begun plans for bringing into Kansas an army of nearly 40,000 harvest hands. Secretary Coburn's report of conditions of 90 per cent in the greatly increased acreage of wheat was based upon reports sent previous to the recent soaking rains which fell all through the wheat belt.

Basing their estimates on his report, grain dealers, farmers and millers estimated that the wheat yield, if conditions remained the same, will be 124,000,000 bushels of wheat. The soaking rains so improved conditions that men whose opinions carry weight, declared that only a continuous drought from now until harvest time could pull the crop under 120,000,000 bushels. There is no doubt but that competition will be so keen as to make wages unusually high.

Anarchist Attacks Duke.

Manheim, Germany—A workman armed with a knife attacked Grand Duke Friedrich of Baden as he was leaving the railroad station. The Grand Duke threw off his assailant and was not harmed. The Duke was about to drive to the races when the man jumped on the carriage steps and apparently tried to grasp the lapel of his coat, but the Duke knocked him to the ground with the hilt of his sword and proceeded. A crowd gathered and attacked the man, intending to lynch him, but the police arrested him.

Ironworkers Leave Prison.

Leavenworth, Kan.—Only 15 of the 33 men convicted of complicity in the dynamite plots at Indianapolis last winter are now left in the Federal prison, the others having been released on bond. These 15 men nearly all are engaged on the steel work of the new cellhouses at the prison, and more work in that line has been done in the last four months by these men than was done in the year before by the unskilled convicts.

835-Pound Fish Caught.

Centralia, Wash.—A sturgeon 11½ feet long and weighing 835 pounds was caught here by C. H. Catlin, a Kelso fisherman, and was sold to the Doty Fish company at Kalama. It was one of the largest sturgeons to be caught in the Columbia in recent years. The fish was worth \$150.

Yuan Shi Kai Threatens.

Pekin—President Yuan Shi Kai has issued a manifesto warning the people that, although he has refrained, up to the present, from employing military force against plotters, in the hope that conspiracies would cease, he would not permit conspirators in the future to stir up trouble.

PROPER CARE OF CUT GLASS

Elaborate Precautions Necessary to Preserve the Beautiful But Extremely Delicate Article.

Cut glass is very fashionable now, and is used upon the dinner table and in the drawing room with great success. But, alas! How easily it can be chipped and spoiled. What precautions can be taken with the precious pieces?

Cut glass must be handled very carefully when it is washed, so that no risk is run of chipping it. A wooden bowl will help.

Place in a wooden bowl some shavings of mild white soap and pour over these boiling water.

When the water has become lukewarm wash the glass in the suds, using a soft nail brush. Then dip the glass in a second wooden bowl, this time filled with clear lukewarm water, until all traces of soap is removed.

Now dip the glass into a third bowl of lukewarm water to which bluing has been added (for the bluing will give a brilliancy to the glass) and then dry it with a very soft cloth. Polish it with soft tissue paper.

Gilded and patterned china may be washed in the same careful way, but the bluing should be omitted.

Compressed Sponges.

A compressed sponge is a bit of toilette daintiness intended specially for travelers, though it appeals as well to the stay-at-home who is an ultra-hygienist. The sponge is of compressed absorbent cotton about the size of a twenty-five cent piece, and half an inch in thickness. Dropped into water it becomes saturated and expands to the size of a small face cloth, large enough to wipe the face free from dust and grime.

Lucky in Love.

The optimist had lost heavily. "Oh, well!" he remarked, as he rose from the gaming table, "unlucky at cards, lucky at love." "Is that true in your case?" sneered the pessimist. "Sure," replied the optimist. "At any rate, I have never been married."—Philadelphia Record.

HUSBAND NAILED RUBBER ON GATES

Wife so Weak and Nervous Could Not Stand Least Noise—How Cured.

Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand it to have a gate slam."

"I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend your Compound to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Alabama.

An Honest Dependable Medicine

is Lydia E. Pinkham's Vegetable Compound. A Root and Herb medicine originated nearly forty years ago by Lydia E. Pinkham of Lynn, Mass., for controlling female ills.

Its wonderful success in this line has made it the safest and most dependable medicine of the age for women and no woman suffering from female ills does herself justice who does not give it a trial.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BEef BRAISED A LA BRISSE

Change From the Familiar Roast is Something That Will Be Appreciated By the Family.

Take a ramp piece of beef, weighing at least eight pounds, and lard it with half a pound of salt pork, cut in long, half-inch square pieces. Season well with allspice, chopped parsley, and a little garlic. Tie up firmly and place in the stew pan with four ounces of melted beef suet; fry briskly until a crisp brown all over. Drain off the fat, add a quart of broth made from bones and trimming, two cups tomato sauce; a bunch of parsley; two onions, and about a quart and pint of quartered turnips. Let boil up, then cover and let simmer gently for nearly three hours. Take out the beef and place on a platter and rub the vegetables through a sieve into the sauce pan, skim off all fat from the gravy and reduce to the consistency of their sauce, then press the turnips, etc., through a fine sieve to make a puree. Turn onto the platter and place the meat on the puree. Pour some of the gravy over the meat and serve.

Good Dumplings.

Many cooks fail with dumplings from letting the mixture stand after it is blended or from letting the water under them get below the boiling point, says the (Common) Mix and sift two cups of flour and four teaspoons of baking powder and one-half teaspoonful of salt. Work into this three teaspoonfuls of butter, using the tips of the fingers, then add gradually three-fourths of a cupful of sweet milk; put out onto a floured board and without working, roll out to half an inch thick; cut in any shape desired, or in strips, dip in flour and lay the pieces close together in a well-greased steamer; set this over a kettle of boiling water, cover closely and steam for fourteen minutes, keeping the water below rapidly boiling. Serve as soon as possible with portions of meat.

Baked Peas.

Now that it is between times of old and new vegetables, try this recipe: Baked peas: One-half pound dried green peas, one onion, one carrot, one teaspoonful sugar, pinch of soda, a generous tablespoon of butter, water. Soak peas over night, put in bean crock in the morning with the other ingredients and cover with water. Bake six hours or all day in slow oven, adding water when it evaporates. When ready to serve remove onion and carrot. This dish will be found very nutritious and appetizing.

Laziness and Logic.

Why are we still indolent and negligent and sluggish, and why do we seek pretences for not laboring and not being watchful in cultivating our reason?—Epictetus.

Feminine Ambition Rebuked.

The instinctive masculine attitude toward feminine ambition is sometimes manifest in early years. Three-year-old Richard was observed in the barnyard one day, following with so meticulous attention the movements of a hen who was trying to crow. Finally he inquired kindly, though with evident disapproval: "Is anything the matter with you?"

Roses From Italy.

The rose, so long considered the floral emblem of England, was not known in that country until the early part of the fifteenth century. Rose trees were then brought from Italy and planted in the royal gardens. They were sent as presents from the holy father and highly esteemed by royalty. It became the custom to carve them over the doors of the confessional as holy flowers, hence the term sub rosa (under the rose) used to mean "with secrecy."—Ave Maria.
