SUBSCRIPTION RATES:
One year, in advance.....\$1 50
Six months in advance.....75c

Before listening to the complaint of your children about the general feishness of the teachers, and getting all worked up and excited over it, it is better to reflect a little. Remember your one or a half dozen cherubs drive you crazy about about half the time, and bear with the teacher who is making for you intelligent men and women out of as unpromising raw material as you were twenty or thirty years ago. Remember that besides your boy, who of course everybody knows is an angel, she has to contend with that awful boy of your neighbor's and you know full well what a terror he is.

A self-acting sofa just large enough for two has been invented. If properly wound up, it will begin to ring a warning bell just before 10 o'clock. At one minute past ten it splits apart and while one half carries the daughter upstairs, the other half kicks the young man out the door. They will come high. Nevertheless several parents in this city feel that one of these sofas will be a household necessity in the near future.

Nyssa is like all other cities of its size. It is not without the croaker or the kicker. His presence seems indispensable to keep up the contrast between the enterprising citizen whose influence is felt and seen in the march of progress and improvement and the man who finds his greatest delight in throwing a wet blanket on every enterprise that tends toward improving the town.

Sometimes we are almost gripped by the suspicion that there are some things about our foreign policy that annoy Col. Roosevelt.

General Pershing's belief that he knows where Villa is suggests that it is about time once more for Villa to play dead.

Col. Roosevelt already knows the issue of the moment. Just now it is Americanism, for which accept no substitutes.

Germany is now in a position to sympathize with that fellow who wanted somebody to help him let go of a bear.

Any time the rest of the world wishes to form a world union this country will furnish advice and example gratis.

What is needed in a tariff commission that will take the tariff out of politics and stay out itself.

"Love Test Blinded Him." says a head line. It's a way love has.

Some men wouldn't take advice if it was offered to them in capsules.

The best friends are those who stimulate each other to do good.

Heroes are those who can start to work on Monday smiling.

How lucky it is that the man in the moon is blind.

The road to success is paved with good advertisements.

The way of the transgressor is hard—on the neutrals.

Of all the persons we've met we like the rustler the best. We can readily forgive the few errors in his politics or religion, for he rustles. He encourages and enthralls and hurries along the slow going. Industrial prosperity follows in his trail and mental

Bulletin No. 1

A Mistake in the Policy of the Bethlehem Steel Company

To the People:

The Senate of the United States has passed a bill to spend \$11,000,000 of the People's money to build a government armor plant. The measure is now before the House of Representatives.

It is said that manufacturers of armor have "gouged" the country in the past, and that a government plant is necessary to secure armor more cheaply.

The mistake of the Bethlehem Steel Company has been that it has kept quiet.

We have allowed irresponsible assertions to be made for so long without denial, that many people now believe them to be proven facts.

We shall make the mistake of silence no longer.

Henceforth we shall pursue a policy of publicity. Misinformation will not be permitted to go uncorrected.

It is and has been the policy of our Company to deal with the American Government fairly and squarely.

We shall henceforth place the details of our relations with the Government before the American People.

The United States has for twenty years obtained the highest grade of armor and has paid a lower price for it than has any other great naval power.

Figures officially compiled for the Senate Committee on Naval Affairs from the Naval Year Book show that under conditions prevailing just before the European war, the chief naval powers of the world were paying these prices for armor:

England, \$503 per ton; France, \$460; Germany, \$490; Japan, \$490; UNITED STATES, \$425.

A government plant cannot make armor any cheaper than we can do it; and—

We are prepared to manufacture armor at any price which the Government itself shall name as fair. THAT BEING SO, SHOULD \$11,000,000 OF THE PEOPLE'S MONEY BE WASTED TO BUILD A GOVERNMENT PLANT?

CHAS. M. SCHWAB, Chairman
EUGENE G. GRACE, President

Bethlehem Steel Company

development is his. He goes from strength to strength. He is the salt of the earth.

Clothed in a fur overcoat, a straw hat and rubber boots, Wm. McDowell of Nampa was apprehended at Olds Ferry by Deputy Sheriff Faurst Friday evening. The sheriff's office here received a wire to watch out for McDowell as the wind was in the east but he had passed through this city about 3 a. m. and had made it to the ferry. McDowell is insane, imagines he is dead and has been insisting that his wife collected his insurance, according to the story told by his attendant. He was taken to Caldwell Saturday morning by Jimmie Jones and at that place he was adjudged insane and sent back to Blackfoot. McDowell said he always traveled with the wind when out walking and if the wind changed so did he, as he had no particular destination but was just traveling.—Weiser Signal.

Oregon Prize Winners to Be College Guests

Arrangements have just been completed by J. A. Churchill, superintendent of public instruction, for sending the boys and girls who won the capital prizes in the industrial club work at the state fair last fall to the Oregon Agricultural college for the boys' and girls summer school, June 19-30. Twenty-one children were successful in winning these prizes at the state fair last September, among whom was Miss Marian Lowe, daughter of Mr. and Mrs. Thos. Lowe of Owyhee. The capital prizes consist of membership in the short course at the Agricultural College with all expenses paid. It represents the highest award in each project offered in the industrial department at the state fair last year. The prizes are made possible through contributions made to Superintendent Churchill for the furtherance of this work by public spirited men and women of the state.

A Mortgage.

A mortgage is a strange institution. It makes a man rustle and it keeps him poor. It is a strong incentive to action and a wholesome reminder of the fleeting months and years. A mortgage represents industry because it is never idle and never rests. It is like a bosom friend, because the greater the adversity the closer it sticks to a fellow. It is like a soldier; it never hesitates in charging nor fears to close on an enemy. It is like the sandbag of a thug; silent in its operation, but deadly in its effect. Like the very hand of Providence, it is spread over all creation, and its influence is everywhere visible. It is like the grasp of the devil fish, the longer it holds the greater its strength. It will exercise feeling, energy and lend activity to the sluggish brain. No matter how hard the debtor works, the mortgage works harder still. It makes a fellow sour, cross, selfish, unsocial and miserable.

NOTICE TO CREDITORS.

In the County Court of the State of Oregon, for Malheur County.
In the Matter of the Estate of Annie Mansell, deceased.

Notice is hereby given by the undersigned, executor of the estate of Annie Mansell, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within six months after the first publication of this notice, to the said executor, at his residence in Nyssa, Oregon.

THOMAS DIXON,
Executor of the estate of
Annie Mansell, Deceased.
First publication May 19, 1916.

Koveralls Keep Kids Kleen

Practical, Healthful, Economical Garments for Small Children.

Practical. Because they are made in one piece, and can be slipped on or off instantly. They fit and look well, and yet are loose and comfortable in every part.

Healthful. Permeable to bloomers. No tight elastic bands to stop free circulation of blood and retard freedom of motion.

Economical. Saving wear on good clothes—saving washing—so well made they are outgrown long before they are worn out.

75c KOVERALLS A NEW SUIT

THE SUIT Reg. U.S. Pat. Off. IF IT RIPS FREE

National Defense and International Peace

Business and Patriotism

A Nonpartisan Appeal to the Nation

The White House
Washington, April 21, 1916

To the Business Men of America:

BESPEAK your cordial co-operation in the patriotic service undertaken by the engineers and chemists of this country under the direction of the Industrial Preparedness Committee of the Naval Consulting Board of the United States.

The confidential industrial inventory you are asked to supply is intended for the exclusive benefit of the War and Navy Departments and will be used in organizing the industrial resources for the public service in national defense.

At my request the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers and the American Chemical Society are gratefully assisting the Naval Consulting Board in the work of collecting this data, and I confidently ask your earnest support in the interest of the people and government of the United States. Faithfully yours,

Woodrow Wilson
