

# OLDSMOBILE SETS THE PACE-20th YEAR

Fathers, Sons, and Grandsons, Each Within Their Time, Have Found OLDSMOBILE Durability, Endurance and Comfort Inseparably Woven Among Their Fondest Family Traditions.

## CLUB ROADSTER

THE sport model idea in motordom is completely expressed in the Oldsmobile Club Roadster. Designed primarily to permit comfort, intimacy and fellowship for five, this club model is further characterized by body lines of unusual smartness and symmetry. It is a beautiful car to own, an enjoyable car to ride in, an easy car to drive, an economical car to maintain.

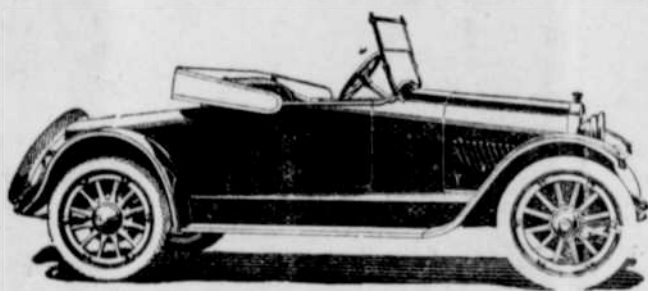

We will gladly arrange for a demonstration to suit your pleasure.

## 8-CYLINDER

UNDER the trim hood and graceful body is the famous Oldsmobile 8-cylinder chassis giving smoothness and flexibility for the highways, power and stamina for the byways, and representing the embodiment of mechanical excellence in motor car design.

Only by performance can the true value of the Oldsmobile Club Roadster be measured; and only by demonstration can its performance be fully realized.

## OLDSMOBILE

IN THIS Model 37 Oldsmobile you will find every requirement for comfort and pleasure of motoring and complete owner satisfaction. The refinements of finish and the convenience, completeness and character of the equipment, are such as you might expect in only a much higher priced car.

More than 40 horse power provides a reserve power greater than may ever be use except on the brow of a steep hill or in deep sand or mud. Yet gasoline consumption is unusually low.

## SIX-CYLINDER

THE Six-cylinder, high speed, valve-in-the-head motor gives a flexibility and range of speeds that invariably brings added confidence and pleasure to driving. Frequent gear shifting is unnecessary and driving strain is reduced to the minimum.

When you have examined this Model 37 carefully, ride in it, drive it, and compare it point by point with other cars, you will appreciate the reasonableness of the price, \$1325 f. o. b. Nyssa.

The Long and Constantly Increasing List of "Orphan" Automobiles Prompts the Prudent Buyer to Make His Selection From Among These Cars, Which Have Proven Their Stability.
