CHOOSE BETWEEN KAISER AND UNITED STATES

The stupendous struggle for supremacy now going on in France has brought home to every American, as nothing else ever has, the extreme danger to our national life and ideals. The time for talk has passed. Quick action is imperative NOW. We must put our shoulders to the wheel by putting our hands in our pockets. Unless we win this war, every dollar we have now and every dollar we make in the future will be marked with the Kaiser's brand. Do you doubt it? Belgium paid, Serbia paid, Russia paid, Roumania paid, northern France paid. If you want to find the money saved by the thrift of those nations subject to the will of Germany, look into the imperial treasury at Berlin. If you want your dollars to join this "round up" hold on to them and FAIL to help your government now. If the Kaiser gets your dollar, you will never see it again. If you loan it to your government, it will be spent for your protection and will come back to you with interest. Choose NOW.

As usual, Hindenburg and the Hohenzollern outfit are prepared to shed every drop of blood in the other fellow's veins to break the allies' lines.

Comfort loving husbands will now rejoice now in the realization that it is accepted as patriotic to wear one's old clothes, shoes and hats

With General Foch in supreme command there will be not only "unity of command," but there will be "command."

Once contracted, the War Savings Stamp habit is a joy. Get the habit.

WHY DO BOYS LEAVE THE FARM?

Why did you leave the farm my lad, Why did you bolt and quit your dad? Why did you beat it off to town, And turn your poor old father down? I miners of platform, pulpit, press, Are wallowing in deep distress; They seek to know the hidden cause Why farmers' boys desert their pas. Some say they long to get a taste Of faster life and social waste; Some say the silly little chumps, Mistake the suit cards for the trumps, In wagging fresh and gormless air Against the smoky thoroughfare. We're all agreed the farm's the place; So free your mind and state your case.

Well stranger, since you've been so frank I'll roll aside the hazy bank. The misty cloud of theories And show you where the trouble lies. I left my dad, his arm, his plow, Because my calf became his cow. I left my dad—twas wrong, of course, But my colt became his horse. I left my dad to sow and reap, Because my lamb became his sheep. I dropped my hoe and stuck my fork because my pig became his pork. The garden truck that I made grow— 'Twas his to sell, but mine to hoe. It's not the smoke in the atmosphere, Nor the taste for "Life" that brought me here. Please tell the platform pulpit, press, No fear of toil or love of dress, Is driving off the farmer lads, But just the methods of their dads.

GRAIN BINS

The Spokesman Review of Spokane reports that the United States is short 8,000,000 grain bags this year. We have more grain planted in this territory than ever and the farmers must arrange to take care of this increased crop.

We have arranged with the Coast Culvert and Flume Co. to handle the

Armco Metal Grain Bins

and will be able to supply any sizes from 750 bu. up to 5000 bu.

These Bins are proof against rain, mold, fire, lightning, animals and other vermin not avoidable when grain is held other ways.

The factory requires us to have our orders in by April 28 to insure delivery. Let us figure with you without delay.

THE BALANCE OF POWER

OVER THE TOP

Order Your Fuel Supply for Winter

Now is the time to order your coal supply for next winter. By ordering now you will insure yourself against a shortage of coal next winter and will be aiding the fuel administration which is anxious to have people get in their next winter's fuel supply while transportation is available. Indications are that the strain on transportation will increase rather than decrease as the months wear on, particularly so since the urgent call for more troops in Europe has been made by the allies and we are responding. We must keep munitions and supplies rolling across the ocean and to that end must cut down all unnecessary overland freight. Fuel is not perishable and can be as well shipped now as later. By moving it now we will be enabled to maintain mine production and fill the needs of industry. If, however, the people indulge in the usual seasonal delays, there is danger of shortage next winter, for the reason that we may not have cars available for transportation nor sufficient miners and woodmen to mine and deliver it. It is with the object of getting people to order NOW that the government is asking your cooperation.

Airplanes to Bear Bull's-Eye.

All airplanes manufactured in the United States for the Army and Navy will bear a red white, and blue bull's-eye of three concentric circles, similar to the insignia of allied planes, on the wings, and vertical red, white, and blue stripes on the rudders. These markings were adopted by the joint Army and Navy Technical Aircraft Board and approved by the Secretary of War and the Secretary of the Navy.

Meat Production Decreased.

English market reports show the a mount of home-grown meat of all kinds

coming to the principal markets have averaged 55,000,000 pounds a week since January 1, as against 227,000,000 pounds average for the same period of 1916. The number of cattle coming to market has decreased 65 per cent, sheep 40 per cent, hogs 65 per cent, compared to the same period in 1916.

PUT IRON IN OUR SOULS!

The Spirit of the First Line Trenches Needed in Loan Drive.

"A little more iron in our souls," was the appeal made by Lyle Young in Des Moines recently, "a little more of the spirit of our soldiers, a stimulus that will give us a relentless and undying determination to wipe the Hohenzollern monster from the face of the earth."

American people are noted for their complacency, their seeming willingness to enjoy the fruits of their prosperity, leaving to others the task of fighting their war for them. They do not stop to realize the enormity of Germany's crime and the intense seriousness of the present world war of self-preservation, the supreme test of our manhood and our civilization.

Our soldiers are doing their part, but says Mr. Young, "how pitiful are the Red Cross contributions, Liberty Bonds and Y. M. C. A. gifts compared with the sacrifices and sufferings of our soldiers. We have comfort, happiness, the ties and affections of home. But they, like immortal Alan Seeger, have their rendezvous with death."

"We are proud," he continues, "that America has met her duty, true to her best traditions. And may God grant that those of us at home fail not in one single obligation to our soldiers, to our Allies, to our country!"

The Journal prints all the good home news—also advertising—phone us.

Plan Furloughs to Help With the Farm Work

For the purpose of augmenting agricultural production it is the intention of the war department to grant furloughs to enlisted men to enable them to engage in farming during the present season. Commanding officers may grant such furloughs within prescribed rules whenever it appears that they will contribute to increased farm production.

Furloughs may be given by commanding officers of posts, camps, cantonments, divisions and departments. They will be for short periods, largely for seeding and harvesting time. They will not be granted to enlisted men of or above the grade of first sergeant, nor in any organization that has been ordered to leave or is in transit from points of mobilization or training to a port of embarkation. All furloughs granted will be recalled and the men ordered to their organizations when they have received preparatory orders for duty overseas.

Furloughs granted for farm work will be without pay and allowances, except that enough pay will be retained in each case to meet allotments in force on the day of the order, war-risk insurance, and pledges on Liberty bonds.

Furloughs may be granted en bloc to men who are willing to accept them, upon request of farmers, when time consumed in traveling from the post to the place of labor will not exceed 24 hours. In making these applications farmers will use a form of the Provost Marshal General's office, also going to the local board.

Furloughs may be granted en bloc to men who are willing to accept them, upon request of farmers, when time consumed in traveling from the post to the place of labor will not exceed 24 hours. In making these applications farmers will use a form of the Provost Marshal General's office, also going to the local board.

Complaints Filed in Circuit Court

The following complaints were filed in the circuit court during the past week:
Viola Wright vs. J. C. Wright, divorce, April 11, 1918.
James S. Stark et al vs. Oregon Commercial Co. et al, suit to quiet title, April 11, 1918.
A. W. Ward vs. Lyman A. Green et al, foreclosure, \$565, April 12, 1918.

Marriage Licenses Issued.

Clarence Vernon VanDever and Fern Letha Rouse, April 9, 1918.
Paul W. Campbell and Lenna J. Mallett, April 13, 1918.
