THE RED CROSS SPIRIT SPEAKS

By JOHN H. FINLEY.

I kneel behind the soldiers' trench
I walk with shambles' sneer and stench
The dead I mourn.
I bear the stretcher and I bend
O'er Sammy, Pierre and Jack and mend
What shells have torn.

I go wherever men may dare, I go wherever woman's
care
And love can live.
Wherever strength and skill can bring
Surcease to human suffering
Or solace give.

I am your pennies and your pounds;
I am your bodies on their rounds
Of pain afar;
I am you, doing what you would
If you were only where you could—
Your avatar.

The cross which on my arm I wear,
The flag which o'er my breast I bear,
Is but the sign
Of what you'd sacrifice for him
Who suffers on the hellish rim
Of war's red line.

A REVISED "CHARITY."

Many a famous master has painted
Charity as a beautiful and tender fig-
ure whose flowing robes shelter the
children of distress. In these days of
a liberal-hearted public and a thousand
and one collections for so-called war
sufferers, however, it is Charity her-
self who needs protection, says Chris-
tian Science Monitor. Professional
"patriots" have been making hay in
New York while the sun of publicity
gullibility was shining, but they will
not be pleased at that city's determi-
nation to put down false war-charity
organizations. Paris, Chicago, and
London had so many of these appar-
ently tender-hearted organizers of
subscription funds that legislation
stepped in and wiped them out of ex-
istence. New Yorkers who prosper by
the capitalization of the world's mis-
fortunes may now look forward to lean-
er days, and some artist, taking the
hint, may paint a revised Charity
whose robes, thanks to a modern Mich-
ael with a flaming sword, no longer
cover a multitude of sins.

Wheat growers in all the Australian
states are greatly concerned about the
prospects of disposing of future crops.
The state ministers of Victoria and
New South Wales have suggested that
farmers should take up stock raising
in preference to wheat growing, as be-
ing more profitable, since cereals were
accumulating at a great rate for lack
of shipping, and the British govern-
ment had not disclosed whether it
would purchase this year's harvest or
not. Professor Lefroy, who was sent
to Australia by the British government,
told the farmers at a conference re-
cently that he could guarantee that the
wheat would stack safely for five years,
and begged them still to cultivate it.
The farmers' decision will depend up-
on whether Great Britain undertakes
to buy the crops garnered during the
war, even though they cannot be car-
ried overseas owing to shortage of
shipping.

FOODS TASTE BETTER COOKED —TOBACCO TASTES BETTER TOASTED

Since the day of the caveman, who
liked his meat raw, civilization has
learned a lot about the scientific treat-
ment of the things we eat.

Naturally none of us would now
prefer to have our meat raw, our po-
tatoes as they come from the ground,
our coffee unroasted.

And naturally follows the great dis-
covery recently made by The Ameri-
can Tobacco Co.—that tobacco tastes
better TOASTED!

This wonderful new idea—simple
like all great inventions—was first
used in producing the famous LUCKY
STRIKE Cigarette—made of toasted
Burley tobacco.

Burley has a mellow flavor, entirely
different from the tobacco usually
used for cigarettes. It is a pipe to-
bacco and LUCKY STRIKE Cigarettes
taste like a pipe.
