Profit by the Mistakes of Yesterday

Yesterday is dead--Forget it!
Tomorrow has not come--Don't Worry!
Today is here--Use it!

You realize you made a mistake last year by neglecting to repair your sheds and provide shelter for your implements. The value of your livestock probably shrunk 25 per cent or more. That was last year. Forget that. But upon the ashes of dead hopes resolve now to erect a superstructure or farm practice that will endure--where the words FORGOT and PROcrastination do not appear.

DAIRY PROBLEMS ARE COMPLEX

Consumers Are Counseled Not
To Decrease Use of Milk Nor
Complain of Prices.

"Unless means are quickly found to remedy conditions existing in the dairy industry as well as in other classes of livestock, serious menace to both industries--which are allied--may be forecast."

This is the statement of Assistant Federal Food Administrator, W. K. Newell.

"With the dairymen selling their businesses as fast as they are able to find purchasers," said Mr. Newell, "with an increasing volume of sales of heavy calves, both male and female, and with already a world's shortage of beef, the outlook for future supplies is not as rosy as one might wish."

"It has been charged in some quarters that the price of milk and other products of the dairy have been elevated to such an extent at all Pacific northwest points that the dairy interests should be making a profit and well satisfied with their lot."

"Taking only the retail price as a basis--that which most vitally affects the consumer--the price of milk today in Portland is 15c per quart."

"Even with normal prices milk is generally sold retail at 10 cents a quart here, therefore the advance is not nearly as marked as in many other lines of foodstuffs."

"The dairyman today is paying more than double the wages of normal years for his hired help. He is paying more than double for his requirements of hay and a very considerable advance over the normal for his bran and shorts."

"The cost of milk cans and other dairy utensils is practically double the normal. The cost of bottles has soared to such heights as to make one dizzy to think of it. The cost of producing milk today is therefore more than double that of normal periods even without considering the fact that this has been a very abnormal season and the production of milk and cream per cow is far below the normal."

"Laws enacted during the last few years force the dairyman to add to his costs as a matter of cleanliness. The public is no longer willing to tolerate the quality of milk generally marketed a few years ago. All of this costs money and the dairyman has been paying it while the full charges have not been passed back to the consumer."

"It has oftentimes been said that a man very seldom quits a business where liberal profits are available. The fact that so many dairymen are quitting that they are not making adequate profits--if any at all."

"The killing of dairy calves during the present season has broken all records simply because the country producer could not afford to feed them to maturity. Suggestion has been made in some quarters that the killing of female calves be prohibited by law. This would indeed solve the problem providing some means were found to feed and keep the animals."

"Dairy experts have for years preached the gospel of 'getting rid of the star boarder'--the cow that does not pay her expense. That is the situation just now. Few are paying their board and there is no improvement of the situation in prospect."

"Similar conditions may be spoken of in regard to the future of the beef supply. Owing to the shortage and extreme price of feed more light-weight and unfinished cattle have been marketed in the stockyards of the country during the last two seasons than ever before known. The country cannot afford to feed its cattle even at the present price of beef and the journey to market is therefore a necessity. In fact the government has recently requested that the public purchase beef from light weight animals because the stock must be marketed. This means that many thousands of animals that are today coming to market weighing around 600 to 1,000 pounds, would have showed a weight of at least a third more if allowed to fatten properly. This means an enormous loss in the meat supply for the future--a loss that the country can ill afford to contemplate."

We Want Sales
Representatives in
Every Town in Oregon

We prefer men who have sold stock, insurance, real estate, books or who have had no sales experience, but would like to develop into salesmen. We train every applicant accepted and provide a system that will enable anyone who works to make from \$75.00 to \$150.00 per week. Can also use women of exceptional ability. Position permanent. In applying, state age, past business experience, number of years you have lived in community, and references. Address in confidence.

Did one of these 200 letters come to you?

A DUSTY courier slid off his motor-cycle at the big double hut in a French town and tramped up to the canteen.

"Got a note for the secretary from my commanding officer," he said. He handed a piece of paper across the counter to a smiling middle-aged man.

This is the note the Secretary read:

We landed here three days ago--miles from anywhere. Can you send us some supplies, especially writing paper? This is the first chance the boys have had to write home and we have no paper to give them.

The older man looked up and grinned.

"Got you away off in the woods, have they?"

"I'll say they have!"

"Can you carry anything?"

"All you'll give me!"

From the shelves the secretary took big packages of paper and envelopes.

"Too much?" He asked.

"It will be gone ten minutes after I get back!" said the boy.

"Tonight," the secretary went on, "I'll drive out a truck with more supplies and a man to stay with you. And tell the boys that if their letters are finished, I'll bring them back with me tonight, and get them into the mails."

An hour later that motor-cyclist whizzed into camp, loaded down with writing paper, and in ten minutes letters were being written to 200 American homes.

The United War Work organizations know what letters mean to American soldiers. They know that fighters want to get letters and want to write letters.

So in every hut and on every ship your boys find writing paper, envelopes, ink, pens and pencils, and tables where they can get off by themselves and tell the folks back home how things are going.

Millions of sheets are given away free every week to American boys overseas. That is why the letters you get from your boy are written on the stationery of one of these organizations. It is one of the plans to bridge the Atlantic. Help keep the letters coming! Your dollars will supply a whole Company for several days. Dig deep today; help to bind together France and here.

Why you should give twice as much as you ever gave before!

The need is for a sum of 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000. By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved. Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their:

3,600 Recreation Buildings	2,500 Libraries supplying 5,000,000 books
1,000 Miles of Movie Film	85 Hostess Houses
100 Leading Stage Stars	15,000 Big-brother "secretaries"
2,000 Athletic Directors	Millions of dollars of home comforts

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field--and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs. Now give to maintain the Morale that is winning the war!
