252 Edison Street, Salt Lake City, Utah

200 Eggs To Each Hen

Some hens lay 50 per year, some 250. Write for my circular, "200 Eggs To Each Hen." It's free. Address: ALVIN ALLEN, Sec. Hyrum Farm Bureau, Hyrum, Utah.

HELP WANTED If you want to learn a new trade, good opportunities open for men over 18 years. Barbers in army have good as officers' commissions. Get prepared in few weeks. Call or write. **Moler Barber College**, 43 S. West Temple St., Salt Lake City.

PET PEEVES OF PREACHERS

Men of the Cloth Have Their Troubles, Just as Have Their Lower-Placed Brethren.

I have met a number of types in my ministerial wanderings. Let me quote you a few:

Those hard-headed gentlemen who call upon me to "display my backbone" by giving them my active support in their pet quarrels.

The backsliding member who fears lest I be not religious-minded enough for his people.

The loud and insistent propagandist who thinks I am insincere because I do not shout our common beliefs from every street corner.

The man who never attends a service, who wonders if my sermons are up to the mark.

The person who sees me only during meals, and who therefore assumes that I have nothing to do but eat.

The fastidious critic but slovenly dresser who objects to the shape of my shoe and the length of my coat.

Those who believe they have the right to give me orders, on the ground that they supply some of the money that pays my salary.

The "mothers" who think it undignified of me to seat myself near girls other than their own daughters.

The near-flatterer who thinks my sermons good—and wonders where I got them.—Indianapolis Star.

WAS ONCE "WASTE LAND"

Present Site of Great Bank in New York City So Described in King's Grant.

In the office of George F. Baker, in the First National bank of New York city, there hangs on the wall the original patent from James II, king of England, dated February 4, 1685, for the land on which the First National bank now stands, therein designated as "waste land" outside the city gate of New York. It was issued to one Thomas Douglass, "late governor and now admiral of New York."

There is attached a small sketch of the property, showing Wall street with its fence, and the city gate, through which leads "Broad way."

When one considers that this "waste land" now represents one of the most valuable spots in the world one realizes what changes a little more than two centuries have wrought in New York city.

What would Thomas Douglass have said if he had been told that on this "waste land" would one day stand a banking institution returning its stockholders over 80 per cent a year?—Wall Street Journal.

The Profitable Nickel.

Like the humble cent, the increased volume of which was recently mentioned in this column, the nickel is in greater demand than ever. That is fortunate, for the face value of those "token coins" is so much greater than the value of the metal they contain that the profit in manufacturing them, together with a slight profit in manufacturing the minor silver coins, more than meets the entire running expenses of the mint.—Youth's Companion.

Easily Arranged.

A woman invited Ed to come and see her. He asked if she had a little boy to play with him, and she said no. He then asked if she would like to have a little boy, and when she said yes Ed replied: "My mamma will tell stork that brought me to her to bring you a little boy."

Fidelity in Small Things.

Fidelity in small things is at the base of every great achievement. We too often forget this, and yet no truth needs more to be kept in mind, particularly in the troubled times of history and in the crises of individual life.—Charles Wagner.

Think It Over.

Upon the basis that every grain of wheat will produce 50 a German mathematician has figured that the third-year progeny of a single grain would feed 300 men.

DAIRY FACTS

CHURN BUTTER ONLY

Cream alone should be churned. It may be skimmed as soon as it rises or may be separated by a mechanical separator. The latter plan is the more efficient, and though requiring a considerable initial outlay often will be profitable. The cream should be set aside in a clean place by separate milkings.

BALANCED RATION FOR COWS

Important to Furnish Various Nutrients in Proportion the Animal Needs Them.

(Prepared by the United States Department of Agriculture.)

It is probably well to refer to the composition of feedstuffs as it relates to economical feeding of the dairy cow. The cow takes into her digestive system feeds which she utilizes for the production of body tissues, heating the body, performing bodily functions, such as digesting feed, moving

Cow Must Have Ample Supply of Palatable Feed.

from place to place, and for milk production. It is sufficient to say that the constituents or compounds and the relative quantities necessary for these operations have been determined; that is, we know that milk contains protein and energy or heat-producing constituents, the protein being represented by the casein and albumin and the energy and heat-producing constituents by the fat and sugar. In addition to the constituents or compounds necessary for the production of milk, she also must have the constituents necessary for performing the other functions mentioned. These, for convenience, have been classified into proteins, carbohydrates, and fats. Fats perform much the same functions as carbohydrates and are worth for production practically two and one-fourth times as much per pound as carbohydrates, and in the balancing of a ration are usually classed with them. This brings us to a definition of a "balanced ration," which is a ration containing these various nutrients in the proportion the cow needs them.

The economical importance of a balanced ration is evident. The cow can use only certain elements or compounds to certain proportions; consequently, if the ration supplies an excessive amount of any one, the excess is liable to be wasted. Not only is this true, but as the cow has to assimilate it even though she cannot use it, her capacity for production is reduced.

In making a ration, cost is one of the important factors. The best practice is to compound a grain mixture so that it will balance with the home-grown roughage. With this in mind, the separate grains should be selected to supply the necessary nutrients at the lowest possible cost. For this, not only the price per hundred pounds but also the relative cost of each constituent, especially protein, must be considered. For example, to determine the cost of a pound of digestible protein in a given feed divide the price of 100 pounds by the per cent of digestible protein in the feed. If this calculation is made for several feeds, the relative cost of protein in each will be apparent. Then the feeds that furnish protein at the least cost can be selected. The same can be done to determine the cost of the carbohydrates and fat, which are the heat-making or energy-producing part of the feed.

What would Thomas Douglass have said if he had been told that on this "waste land" would one day stand a banking institution returning its stockholders over 80 per cent a year?—Wall Street Journal.

The Profitable Nickel.

Like the humble cent, the increased volume of which was recently mentioned in this column, the nickel is in greater demand than ever. That is fortunate, for the face value of those "token coins" is so much greater than the value of the metal they contain that the profit in manufacturing them, together with a slight profit in manufacturing the minor silver coins, more than meets the entire running expenses of the mint.—Youth's Companion.

Easily Arranged.

Oh! My Face

People who have impure or impoverished blood should be careful to take only a temperance remedy made of wild roots and barks such as Dr. Pierce's Golden Medical Discovery and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulation begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin makes that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache.

Get Dr. Pierce's Golden Medical Discovery to-day at any medicine dealers, in tablet or liquid form, or send for trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloe and root of jalap, first put up by Dr. Pierce and now sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets. Always convenient to take.

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brands

The Encyclopædia Britannica says about the manufacture of smoking tobacco: "...on the Continent and in America, certain 'sauces' are employed...the use of the 'sauces' is to improve the flavor and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco. Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance. Your nose can quickly distinguish from any other tobacco. Try it and see.

WHY NOT TRY IT?

Any farmer who raises grades would realize larger profits if he raised purebred Short-horns. They don't require any more room, nor any more feed, nor any better care than the grades should have. But they will for more money. A Kansas farmer produced 44 head from one 12 year old. Two brothers in Wisconsin produced 110 head from one in 14 years. The value counts up when you're breeding purebreds. American Short-horn Breeders' Association, 12 Dexter Park Ave., Chicago, Ill.

Skin Tortured Babies Sleep After Cuticura
All druggists: Soap 25¢, Ointment 25¢ and 50¢, Talcum 25¢. Sample each free of "Cuticura, Dept. 8, Boston."

PARKER'S HAIR BALM
A toilet preparation of great merit. Helps to eradicate dandruff. For restoring color and beauty to Gray or Faded Hair. 50¢ and 1.00 at Druggists.

Her Occupation.
"What kind of a woman is his wife, Amanda?" "I think she is what you call a mandatory."

SPRAINS! RUB PAINS AND SWELLING AWAY

Don't suffer! Go about your duties—Relief comes the moment you Apply "St. Jacobs Liniment."

Don't stay crippled! Rub this soothing, penetrating liniment right into the sprain, ache or strain, and out comes pain, soreness, stiffness and swelling.

Nothing else penetrates, heals and strengthens the injured muscles, nerves, tendons and ligaments so promptly. It doesn't burn or discolor the skin and can't cause injury. Don't suffer! Get a small trial bottle from any drug store now—Himber up! Rub the misery right out. A moment after "St. Jacobs Liniment" is applied you can not feel the slightest pain or soreness, and you can go about your regular duties.

"St. Jacobs Liniment" conquers pain. It has been used effectively for sprains, strains, soreness and stiffness for 60 years—six gold medal awards.—Adv.

Natural Procedure.
"What do you think of that new gas scheme?" "Oh, everybody is making light of it."

Your Eyes
A Wholesome, Cleansing, Refreshing and Healing Lotion—Murine for Redness, Soreness, Granulation, Itching and Burning of the Eyes or Eyelids; "2 Drops" After the Morning, Evening or Gold Eye; or for any other eye trouble. Ask Your Druggist for Murine when your Eyes Need Care. It is Murine Eye Remedy Co., Chicago.

LOCATIONS FOR HOG RAISING

Well-Drained Farm Possessing Rich Soil That Will Produce Forage Is Desirable.

(Prepared by the United States Department of Agriculture.)

An ideal location is on a well-drained farm possessing a rich soil that will produce grasses and other forage as well as the grains needed for fattening the hogs. This does not mean, however, that only those farmers holding rich, level lands should raise hogs, for as a matter of fact hogs are most easily handled on farms that are somewhat rolling. For the production of forage crops the rolling farm is often as good as the level one, and it often has the added advantage of shade and

Increase the Meat Supply of the Nation by Finishing the Hog Crop.

a better water supply. The hill farmer does not have the best situation in all things, but in many instances he has certain advantages which he does not appreciate.

It is an advantage to locate in a hog-raising community. There are many small problems in management which may be learned through actual experience in one's own community. In such cases the older breeders have for a long time been in contact with local conditions, and a new man may profit by their experiences without spending several years acquiring one of his own. Then, too, if a whole community will raise a certain grade or breed of hog, it can obtain a reputation for its product as a community such as an individual never could hope to win. When the buyers learn that a type or breed of hog which they desire is to be obtained in unlimited numbers in a certain locality, they will naturally turn there first to buy the animals. All of which tends to decrease the difficulties of growing and marketing for the small breeder.

The question of a market must always be considered, especially the facilities for reaching it and the type of hog it demands. Most communities have been successfully connected with the large central markets by the railroads, but these will be of little avail if the roads to the stations are poor. Good roads are of inestimable importance, for, among other things, they enable the farmer to market his products at any and all times, thus taking advantage of any favorable fluctuation in the market prices. As to the type of hog the market demands, that must be determined by local inquiry, but in order to bring the highest market price hogs must be well finished and fat. The greatest demand is for 200 to 300 pounds hogs, and farmers generally obtain the most profit by marketing their hogs at weights ranging from 250 to 300 pounds.

LIVE STOCK NOTES

It is a well and quite generally known and recognized fact that the serum treatment properly administered will immunize cattle against blackleg.

Keep an eye open for those fat, plump, young pigs that do not come out of their nest for exercise. They are the ones that are apt to have the thumps.

To feed the pigs from the trough, arrange a creep so the pigs can go to the trough to eat without being interfered with by the sows.

No cow's color has ever caused her to produce one pound more of milk or one pound more of butterfat.

Animals should have enough room in barns and under sheds so they will be comfortable.

Good pasture lands are the basis of successful dairy farming.

The water supply is of paramount importance in raising animals.

UPSET STOMACH

PAPE'S DIAPEPSIN AT ONCE ENDS SOURNESS, GASES, ACIDITY, INDIGESTION

Undigested food! Lumps of pain; belching gas, acids and sourness. When your stomach is all upset, here is instant relief—No waiting!

The moment you eat a tablet of Pape's Diapepsin all the indigestion pain, dyspepsia misery, the sourness, gases and stomach acidity ends.

Pape's Diapepsin tablets cost little at any drug store but there is no surer or quicker stomach relief known. Adv.

He Had Had His Medicine.

Ma—There's a good little boy. Take your medicine like father does. Jimmie—Aw shucks! When father takes his he always says that word you liked me once for sayin'.

The Cuticura Toilet Trio Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

A man carries domestic economy to extremes, when he stops the clock at night to save time.

Keep your liver active, your bowels clean by taking Dr. Pierce's Pleasant Pellets and you'll keep healthy, wealthy and wise. Adv.

In Boston a rubber factory is called an inquisitive plant.

Look out for Spanish Influenza.

At the first sign of a cold take
