A request has been sent to the state game commission by farmers living along the banks of the Luckiamute river in the southwestern part of Polk county, asking permission to kill a number of beavers which are seriously damaging lands along that stream.

A public building adequate to house the postoffice, customs service and other branches of the government located at Astoria, would require 8400 feet of floor space and would cost \$300,000, according to an estimate received by Representative Hawley from the treasury department.

Mrs. C. E. Andrews, of La Grande, mother of Bert Andrews, who was the first Oregon member of the Rainbow division to meet his death in France, has been named honorary president of the Oregon chapter of the Rainbow division veterans, an organization which embraces 27 states.

The Klamath Indians of Oregon will be permitted to sue in the court of claims to recover approximately 100,000 acres of land which, they say, was omitted in fixing the boundaries of the Klamath reservation, by the terms of a bill introduced in the house by Representative Sinnott.

First Lieutenant Louis H. Compton of Salem, recently returned from overseas, bringing with him the croix de guerre awarded by Marshal Petain of France for bravery in action, will be state parole officer to succeed Joseph F. Koller, according to announcement made by Governor Olcott.

A new irrigation project by which 1600 acres of land will be brought under water on the south side of the Klamath river, between Klamath Falls and Keno is going rapidly forward. The water has been diked from the lands in that section and will be pumped on again by two large centrifugal pumps.

Warning is given by J. O. Holt, manager of the Eugene Fruit Growers' association, that owing to the tremendous peach crop in the Willamette valley this year the fruit will be marketable unless thinned to a great extent. He declared that otherwise all the peaches will be small and it will be difficult to sell them.

A mandamus suit was filed in Marion county circuit court by S. A. Mulkey and others interested in the organization of a bank for St. Johns, in which the court is asked to issue an order directing the state banking board to issue a charter to the new bank or show cause for refusal. Petition for a charter for the bank at St. Johns was filed April 16 and was disapproved by the state superintendent of banks on the ground that no need for a bank existed.

The first forest fire of the season in the north end of Jackson county occurred on the railway leading out from the Rogue River Lumber & Box company's mills, six miles north of Gold Hill. Mill and timber crews and ranchers prevented a heavy loss.

The railroad between Medford and Jacksonville, which has been operated for several years by the Southern Oregon Traction company, and which was sold at public sale ordered by the circuit court, May 30, has been leased for a year by J. T. Gagnon, the Medford lumber mill operator and box manufacturer, pending confirmation of the sale by the court.

DO YOU LIKE TO LIVE AMIDST ATTRACTIVE SURROUNDINGS? THEN READ THIS.

The Village Beautiful

If a single merchant in this town were to adopt the permanent policy of making his store attractive in all possible ways he undoubtedly could hold the best trade of his town in the face of competition of every other kind.

What is true of the individual merchant is true of the entire village or city. All it needs to hold its trade and its population is to be attractive.

Attractiveness is of many kinds and is composed of many elements. Good roads, clean streets, low prices and high quality will attract to and generally hold trade for a town.

But shaded streets well sprinkled, green lawns closely cropped, neatly painted and well-kept houses and outbuildings reflect a diligence and prosperity that are almost as persuasive as some of the more tangible and material appeals of cost and quality.

One may imagine, for example, what a transformation could be effected in this town if every window on its business streets were occupied by a flower box filled with beautiful flowering plants. Yet the thought need not remain wholly imaginary; for at a comparatively small cost to each individual merchant such a transformation could be effected. Many of the largest stores and hotels of the great cities have decorated their windows in this way.

An example thus set by merchants doubtless would be followed by many citizens in the decorating of their homes.

In a few years our town would become known far and wide for the beauty of its homes and places of business.

THINK THIS OVER.
