Mrs. W. G. Cathey was in Boise Tuesday.

Mrs. Roy Crockett and daughter Margaret returned from Boise the first of the week, from where they had been having Margaret's tonsils removed.

Ontario experiences another little excitement when three wild and woolly attempted to break into the jewelry store in that little city on Wednesday night. While making the arrest, in some way the robbers got away from the officer and headed toward Nyssa. Mr. Chipman, our city marshal, was notified about 4 a. m. to be on the look out for them. He met the party on Thursday morning and while at the depot he noticed two men cross the track headed for the bridge. Noticing that one of the men had no hat he immediately got his car and started after them, but, in the meantime a car had picked the fellows up and carried them on to Parma where Mr. Chipman overtook and captured them while they were taking on a feed in a restaurant in that Idaho town. He returned to Nyssa with them without any resistance whatever but could not tell what became of the other fellow who has not as yet been captured. These men had quite a lot of cutlery in their possession which they claimed they had purchased from a hobo—it may be some of the missing remnants of the Nyssa Trading company.

BRITISH DISABLE
BOLSHEVIK FLEET

Stockholm.—The bolshevik fleet in the Gulf of Finland, defending Petrograd, has been disabled completely, the newspapers here report. The defenses of Kronstadt, which were bombarded by British warships, have been destroyed.

Washington.—Ambassador Morris, who was sent by the state department from Tokyo to report on conditions in Siberia, has advised the government here that the next 30 days will probably see a crisis in the affairs of the Kolchak government.

Ambassador Morris asserts that Admiral Kolchak has had to devote much attention to the military campaign against the bolsheviks that he has been unable to organize his gov-

ernment sufficiently, but nevertheless Kolchak is the best man for the task confronting him.

Lack of material aid from the allies has been a tremendous handicap for Kolchak, the report states, and this has led to friction between the military commanders of the Kolchak forces. Kolchak is endeavoring to make a determined stand on a new line more than 100 miles west of Omsk. His forces number not more than 200,000 men, the ambassador advised.
