PRICE GUARANTEE TO BE INVESTIGATED

Washington. — Business interests, labor unions and the public generally are to be squandered out as to the sentiment in regard to the guarantee-against-price-decline system said to be in use by many manufacturers and wholesalers in the sale of goods. The federal trade commission announced that it had sent out several thousand letters inquiring as to the opinion of the plan.

The guarantee-against-price-decline system amounts to a guarantee by manufacturers and wholesalers in selling goods that should a decline in price occur before delivery of the goods the buyers shall benefit by the decline, but if the market should rise before delivery the manufacturer and wholesaler would assume the loss.

Complaints lodged with the commission assert that working out of the plan tends to prevent a decrease in the cost of living.
