

News Notes of Nyssa School

Now that vacation is over, the students have resumed work more earnestly than ever (it is hoped) in preparation for the semester test which will occur the latter part of next week.

Owing to the delay in the arrival of the fixtures the electric lights have not yet been installed in the school building. Several of the boys have volunteered to assist in the wiring of the school house so that the work may be hastened.

Colds have practically died out among the students and as all the rooms were fumigated during vacation, it is hoped that all epidemics will be prevented hereafter.

On account of illness Miss Webb was obliged to resign from the position as domestic science teacher in the High school. She has now returned to her home in Iowa, much to the regret of the students and teachers of the High school.

Miss Smith, a graduate of O. A. C., has formerly been secured to take charge the domestic science work so that no time has been lost in going on with the classes.

Several new students have been enrolled the last week. If this increase continues the high school will soon reach the fifty mark.

Mr. Conklin attended the State Association of Oregon teachers which

was held in Portland during the holidays and reports an unusually satisfactory meeting.

A case of books has been received for the high school from the State library so that there may be more material for debates and for the history classes.

PRESBYTERIAN CHURCH
Weston F. Shields, Pastor.

Preaching Sunday at 7:00 p. m. This is the commencement of the week of prayer. The subject for the evening is "The Power of Prayer". Meetings every night from January 11th to January 18th at 7 p. m. The topics are as follows:

Friday, January 16th "An Awakened Church by the Call for Workers."

No meeting Saturday evening.

Sunday School at 10:00 a. m. Christian Endeavor at 6:30 p. m. every Sunday.

FURTHERING FARMING

WITH even greater interest and activity than ever before (if that's possible) the Malheur County Bank is going to back the business of farming during 1920. We are satisfied with the future of Oregon's eastern empire farms, large and small, diversified and specialized, and shall put forth our very best efforts to aid all.

If you feel like "starting something"—make it a bank account.

Correcting
An Evil

Here's an idea we want to pass on to you because it is timely. While all of us are reconstructing international ills, let's reconstruct some of our home-grown evils—particularly those that affect the farmer. This bank and

The COUNTRY GENTLEMAN

unite in saying: Let's reconstruct the produce middleman and get better prices for both grower and consumer. Let's reconstruct the meat handler and give the stockman a chance. Let's reconstruct our marketing system.

Let's make the farmer's dollar bigger and his buying power greater. In a word, let's recognize that the American farmer deserves the biggest, broadest leadership that can be found—such leadership as THE COUNTRY GENTLEMAN, nation-

LOANS TO REBUILD EUROPE

Step to Assist Exporters in Getting Materials to Europe.

Washington.—Appeals of American business for aid in financing the reconstruction of Europe were answered when the war finance corporation announced that four loans, aggregating \$17,000,000, soon would be made to commercial interests which will employ the money in exporting needed materials to the stricken nations.

Two loans, each of \$5,000,000, have been arranged to finance the exportation of locomotives and agricultural machinery. The locomotives will go to Poland and the agricultural machinery to England, France and Belgium.

A third loan for \$5,000,000 will go to an electrical machinery corporation and will be used for rehabilitation of stricken sections of Belgium and France.

An advance of \$2,000,000 also is included in the total of \$17,000,000 to go to several banks which will furnish funds for the exportation of machinery to reconstruct steel mills in France.

BODIES MAY BE MOVED

France Grants Permission for Transfer of 20,000 U. S. Dead.

Paris.—The French government has granted permission for the removal to the United States of the bodies of 20,000 American soldiers buried in France. The bodies to be removed are those buried in cemeteries outside the zone of the armies and do not include those gathered into big American cemeteries in the army zones.

It is understood that the policy of the American government will be to remove to the United States only those bodies requested by relatives.

These 20,000 bodies are scattered in 600 cemeteries, the largest two of which are at Brest, where there are about 5500 graves of men who died of influenza at Brest and on transports.

Congress Back on the Job.

Washington.—Returning to work Monday after two weeks' holiday, congress faces one of the busiest sessions in history. In addition to innumerable domestic matters there are international questions of far-reaching import that must be settled, including the treaty of peace with Germany and Austria. Adjournment was not expected before fall, and the only break in the long session that members can look forward to is the brief recess that will be taken coincident with the holding of the national party conventions in the summer.

Coal Output Picks Up.

Washington.—Coal production is again sufficient to meet current requirements, according to the weekly report made public by Walker D. Hines, director-general of railroads.

Europe is Sending Cheaper Domestic.

Chicago.—The day of the \$7 a week servant girl who would cook, sweep, mind the baby, wash dishes, run the laundry and do odd jobs of calculating in her spare time, is coming again, according to Miss Elizabeth Moynihan of the Travelers' Aid society. Every boat from Europe is bringing hundreds of Scandinavian, Irish, English, and Italian girls eager to do housework, Miss Moynihan says.

\$38,911,195 Coins Made by Mints.

Washington.—Mints of the United States establishing a new record, during 1919 produced \$38,911,195 coins for this and foreign governments. Director Baker of the mint bureau announced. The production in 1918 was \$598,000,000.

Number of Working Children Increases

Washington.—An increase in the number of working children and a longer working day for children under 16 was the effect of the war on child labor, according to a statement issued by the department of labor.

American Gold Production Falls.

Washington.—Gold production in the United States during 1919 was less by \$10,157,000 than the 1918 output, according to the statement by the bureau of the mine.

Naval Heroes to Be Sought.

Washington.—Secretary Daniels has issued a call to the entire naval service designed to bring out full information as to acts of heroism or distinctive service by officers or men during the war which would justify the awarding of decorations.

TO CAMPAIGN AGAINST THE JACK RABBIT.

After consultation with Judge Test, Commissioner Vines, and W. W. Howard who have been carrying on an efficient campaign in the Lower Malheur Valley it was decided to make the benefits of this work available to every section of the county. Communities needing this work

DEADLOCK IN SENATE
MAY YET BE BROKEN

Suggestions Made and Accepted Believed to Lead to Eventual Agreement

Washington.—Efforts to break the deadlock in the senate peace treaty negotiations were advanced a step when senators advocating ratification of a counter proposal to the compromise reservations submitted by a group of democrats. The republican proposal, its sponsors said, Senator Lodge given tentative assent, was to deal only with some of the issues in the reservation committee to future negotiations and equality of voting power among nations.

Some of the democratic senators were said to have been including a change in the reservation program of last session that the senate qualification not have to be accepted affirmatively by the other powers. Agree to these changes, however, was stated to be conditional on certain concessions by democrats in other reservations.

The speech of Mr. Bryan Jackson day banquet, which, in opposition to any effort to the treaty into the campaign, stated the speedy compromise, late the senate record by Sen. McCormick, republican, of Illinois, the president's letter accepted had been presented by Hittcock. Senator McCormick stated that the two "be in juxtaposition in view of reports they are agreed on the treaty."

NEW LIBERTY LOAN
MAY BE NEEDED

Washington.—Another liberty loan may be necessary if congress approves new fields of large export or reduces the aggregate volume of loans. Secretary Glass declared statement setting forth the government's financial condition. If the tax level is retained and expenditures are kept down, the government is in the tide of government, the secretary asserted.

Although further issues of certificates of indebtedness may be needed they will be redeemed by the sale of new issues of certificates the first time since late 1918. An indicative of progress in the treasury Mr. Glass pointed out the nation's gross debt in the two classes of certificates outstanding. The total which on September 1, 1919, was \$25,837,078,807.

BIG EUROPEAN LOAN

Relief Held Necessary to "General Disintegration"

Washington.—Loans aggregating \$200,000,000 for food relief in Poland and other European countries and Armenia, to prevent "a disintegration of political cohesion in Europe," were proposed by Secretary Glass, who might be necessary to increase amount to \$200,000,000 when situation in Europe had been averted. The secretary reviewed the condition in the suffering states, particularly Austria and Italy, and said Great Britain, France and Italy were assisting in relief efforts in Austria, through a \$40 million loan, and that England would lend aid by furnishing all transporting American food supplies as possible from the kingdom.

Under the treasury department the loans would be advanced through corporation out of the dollar wheat guaranty fund and be used to establish credits against the basis of \$70,000,000. Austria, \$50,000,000 for Poland, \$60,000,000 for other European countries and \$1,000,000 for Armenia.

Increased Pay for Navy Men Proposed. Washington.—The house navy committee voted unanimously to recommend increases of 30 to 50 percent in the pay of enlisted men in the navy and advances ranging from \$840 a year for officers to \$1,000 a year for admirals, would share in the increase.
