WAR NURSE FROM ARMENIA ASKS AMERICA'S AID

Soldier Husband and Battlefield Baby Touring Country With Her for Near East Relief.

A mother, father and daughter, the latter born in a tattered Red Cross tent in the icy Caucasus while guns roared all around and Turkish shells, ignoring the mercy emblem, burst near them, are touring America in behalf of their native Armenia. They are General Mesrop Nevton Azgapatian, his

wife, Lady Anne, and Irene Esther Araxie Azgapatian, whose baby eyes opened upon scenes of horror and later through them saw much of the sufferings of the people of Armenia.

The family are making their tour under auspices of the Near East Relief, the big organization which has saved hundreds of thousands of the people in that part of the world from death by hunger and cold and is soon to open a nation wide campaign for funds to complete the work of saving the survivors, more than a half million of whom must perish unless aid comes to them soon. America is their only hope.

General Azgapatian served gallantly in the Russian armies in the Caucasus against the Turks. His wife, who accompanied him to the front, did noble work for the wounded and sick, and it was while in this service that her baby was born in a hospital tent during a battle. An army blanket swung from two poles in one corner of the tent was the baby's crib during the rest of that terrible winter campaign. With the collapse of the Russian armies after the Bolshevik revolution the Azgapatians returned to Armenia for a brief spell and did their best to alleviate the suffering they found on every hand. But with a Turkish price on his head the father finally made his way with his family through Russia to Finland and then to this country. What they tell of conditions and needs in Armenia is first hand evidence.

In the Caucasus, Armenia, Syria, Turkey and Persia are more than 250,000 orphans, helpless little victims of war, massacre and deportation, and for the great majority the only bar between them and absolute starvation is a bowl of hot bean soup every day. This soup is supplied by the Near East Relief now making an appeal to the American people for sufficient funds to increase this dole and to provide these suffering little ones with clothing and give them an education that will help them to become self supporting. It is estimated that more than 1,800,000 in Western Asia will die of starvation unless American aid is continued.

CHURCH COUNCIL ENDORSES N. E. R.

Federal Body Says No More Compelling Need in All the World.

Departing from custom, the Federal Council of Churches has endorsed the work being done by Near East Relief, 1 Madison Avenue, New York City, the former committee for Armenian and Syrian Relief which has essayed the task of caring for 1,250,000 starving people in Western Asia.

Resolutions adopted by the executive committee, as announced by Charles S. Macfarland, general secretary, are as follows:

"Your committee recommends that prayers be offered in all our churches for the suffering children throughout the world, especially those who are in distress and peril as the result of the war.

"They further recommend that we reaffirm and emphasize our interest and co-operation in the plans of 'Near East Relief.' We know of no need in the world that is more compelling than that of the Armenian, Syrian and other peoples in the Levant who have already received and must still receive the generous sympathy of the American people."

Cardinal Gibbons Asks Aid For Starving Armenians

This is the message from James (Cardinal) Gibbons read at the big meeting in Washington in aid of the Near East Relief. The venerable primate of the Catholic Church in America is intensely interested in the

(International) Cardinal Gibbons, appeal which the Near East Relief will make to the country in February for funds to support its work among the starving peoples of that stricken land. To the Washington meeting he wrote:

"Advices and information coming from the Near East cannot be doubted. There is great actual suffering and famine. These people, recently become independent and released from bitter thralldom, cannot support themselves. And the Christian and common instincts of humanity which have prompted the people of the United States during the last two years to relieve the distress and needs, especially of the Near East, must not be allowed to grow cold and be diminished.

"I hope we shall all unite in this present emergency and be able to collect sufficient funds to enable these peoples to live and work until next summer brings them permanent relief and subsistence. I call upon all to respond generously to the appeal now being made and trust that the committee will be gratified with the results."
