Political Announcement

Subject to the result of the Primary Election to be held May 21, 1920, I hereby announce my candidacy for the Republican Nomination for State Senator from the twenty second senatorial District composed of Grant, Harney and Malheur counties, State of Oregon.

If nominated and elected I will, during my term of office, endeavor to act with prudence and care in the discharge of my duties, without fear or favor and for the greatest good to the greatest number.

FOR JOINT SENATOR

I seek the republican nomination for joint senator for the twenty-second Senatorial District at the coming primary.

If nominated and elected I promise to the District an honest service and will take my oath of office unpledged to any person or interest.

I am a liberal and not a reactionary or radical; and especially so as to public expenditures. Economy should mean thriftiness. Public expenditures demand reasonable promise of material and social benefit. Irrigation and drainage under special assessments; good roads; protection of grazing lands and of the public range for the good of the livestock interest as a whole; betterment of mail service; improvement of facilities of branch line railroads; age among the important local needs. Roads and postal service in country districts are the only visible returns from taxation, and the burden of taxation should be fairly equalized through these means.

On the foregoing statement I ask the support of the republican voters.

Ten miles used to be a long way

WHAT a difference in these motor-car days, when every point in the county is hardly more than "just around the corner."

People's ideas are changing, too.

They're beginning to figure out how much it is costing them to keep a car. And the man who is doing the greatest amount of figuring is the man with the moderate-price car.

There still seems to be a notion in some quarters that any tire is good enough for a small car.

That's not what the man who owns it thinks.

In recommending and selling U. S. Tires we are trying to see his side of the propo-

sition—finding out what he wants in a tire and giving him that.

III

Large or small, U. S. Tires are built to only one standard of quality—the standard that produced the first straight side automobile tire, the first pneumatic truck tire.

Every tire that bears the name "U. S." is built the best way its makers know how. It isn't the car, but the man who owns the car, that counts with the oldest and largest rubber concern in the world.

IV

As representatives of U. S. Tires in this town, we offer you the benefit of our experience and advice in settling your tire problem.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
