HE'S GOT A REPUTATION TO LIVE UP TO

Two Splendid Rules. Thou shalt not make unto thee any false standards of firm life, nor bow down thyself to them to serve them. Thou shalt not say or do anything in vain, but have some sensible purpose in all thou shalt say or do, for the community shall not hold him guiltless that sayeth or doeth anything in vain.—Wm. Butcher.

PROBABLY WISE

What has become of your campaign for feminine votes? "The first girl I asked refused to vote for me. I hate to take no for an answer, so in order to line her up I proposed matrimony. She accepted." "Well?" "But after reflection I decided I'd better end my campaign right there."

DOMESTIC ECONOMIST

Mrs. Chatterton—Don't dare to argue with me. It won't do any good. Talk is cheap. Her Husband—Quite right, my dear. Talk is cheap in this household. The supply so greatly exceeds the demand.

TEST IT

Stella—My suitor has written me some poetry. Ella—Why don't you send it in to some magazine and see if it's any good?

African Race Well Advanced. The Wakumba, the leading Bantu tribe in Uganda, are the most highly civilized black race in Africa. They had a decimal system of calculation when first discovered by white men. They also understood iron working and had a considerable knowledge of music.

Novel Stuffing for Pillows. In British Honduras the natives have discovered that nature has provided them with splendid material for pillows and mattresses in the pollock tree. The fruit contains a short staple fluff or silk fiber. It will not lump, even after years of service.

Moving Mountains. Studies in the Himalayas have brought to light a phenomenon. It is no less than an apparent creeping of these gigantic mountain ranges, the highest on the globe, sidewise toward the south, with a consequent crumpling up of the Siwalik hills. Surveys disclose the real facts.

Imitation Eastern Carpets. Carpets now sold as exact reproductions of rare eastern rugs are a tribute to modern art. Some of the most notable reproductions are those of the seventeenth century coronation carpet made for the shah of Persia, the Khorsan rug and the famous carpet manufactured for the Sheik Ismail.

AN ELECTRIC RANGE Means Kitchen Comfort

Less watching is required when you cook on an electric range. The radiated heat that is even and easily regulated causes small loss of moisture. There is no fear of burning—food may be left cooking for hours, if necessary—and stirring and turning are unnecessary. You can save your meat bill by using an electric range, for you will find the radiated heat causes from 15 per cent to 25 per cent less shrinkage.

It is the ideal way of cooking from every standpoint, clean, cool and convenient. Let us tell you about the fireless cooker principle which is used in our electric ranges.
