**PLATFORM ADOPTED
 BY THE DEMOCRATS**

League of Nations Indorsed
 and Republican Senate
 is Condemned.

The platform is silent on prohibition enforcement. Foremost among the planks is an indorsement of the league of nations and condemnation of the republican senate for having interposed "partisan envy and personal hatred" in the way of world peace. The important planks summarized are as follows:

Sends greetings to the president, and hails with patriotic pride the great achievements for our country and the world wrought by a democratic administration under his leadership, and declares its adherence to the fundamental progressive principles of social, economic and industrial justice. Favors the league of nations as the surest, if not the only practicable means of maintaining the permanent peace of the world. Endorses the president's view of our international obligations and his firm stand against reservations designed to cut to pieces the vital provisions of the Versailles treaty and commends the democrats in congress for voting against resolutions for separate peace which would disgrace the nation. Advocates the immediate ratification of the treaty without reservations which would impair its essential integrity; but does not oppose the acceptance of any reservations making clearer or more specific the obligations of the United States to the League associates.

Praises the administration's conduct of the war, commends the patriotic efforts of American citizens to aid the government and praises the military and naval forces with mention of General Pershing by name.

Extols the federal reserve system and the financing of the war.

Denies republican claims of economy, declaring that no money was saved except at the expense of the efficiency of government bureaus.

Demands prompt action by the next congress for a complete survey of existing taxes and their modification and simplification.

Blames diminished production for high prices and declares the republicans are responsible in that they delayed peace and failed to provide the president with necessary legislation.

Pledges the party to a policy of strict economy in government expenditures and to the enactment and enforcement of such legislation as may be required to bring profiteers before the bar of criminal justice.

Reaffirms the traditional policy of the democratic party in favor of a tariff for basing tariff revision upon the intelligent research of a non-partisan commission.

Defends President Wilson's veto of the budget bill, and advocates a budget system that will function in accord with the principles of the constitution.

Praises the democratic record in establishing farm loan banks and other farm legislation, and favors such legislation as will confirm to the primary producers of the nation the right of collective bargaining and the right of co-operative handling and marketing.

Declares resort to strikes and lockouts which endanger the health or lives of the people an unsatisfactory device for determining disputes, and pledges the party to contrive, if possible, and put into effective operation a fair and comprehensive method of composing differences of this nature.

Congratulates legislatures that have ratified the suffrage amendment, and urges democratic governors and legislatures of Tennessee, North Carolina and Florida to complete ratification in time for women to vote this fall.

Declares against child labor. Favors legislation for child welfare and maternity care. Advocates increases in teachers' salaries.

Advocates vocational education, better conditions for working women, and indorses separate citizenship for married women.

Advocates generosity to disabled soldiers, and pledges the party to the enactment of soldiers' settlement and home aid legislation.

Commends federal administration of railroads during the war, declaring it was efficient and economical, despite inadequate and worn equipment. Criticizes the recently enacted transportation act and says congress temporized until so late a date that the president was forced to sign the bill or else throw the railroad situation into chaos.

Favors continuance of federal aid in road building.

Pledges the party to a policy which will promote the growth of our merchant marine under proper legislation.

Indorses the creation and work of the federal trade commission.

Favors the enactment of legislation for the supervision of live stock markets by the national government.

Deplores the misfortunes of the Mexican people and upholds President Wilson's Mexican policy, declaring that as a consequence order is reappearing in Mexico. Advocates recognition of new Mexican government when it has proved its ability to maintain order.

Within the limitations of international comity and usage, repeats the several previous expressions of the sympathy of the democratic party of the United States in the aspirations of Ireland for self-government.

Commends the administration for Alaskan railroad construction and coal and oil development, and advocates modification of the coal law to facilitate development, and also extension of the farm loan act to Alaska.

Favors the granting of independence without unnecessary delay to the Philippine islands.

Deplores the pre-convention expenditures of republican presidential candidates, and advocates regulation of such expenditures by federal law.

Reaffirms respect for the great principles of free speech and a free press but asserts as an indisputable proposition that they afford no toleration of enemy propaganda or the advocacy of the overthrow of the government of the state or
