**WHEAT CROP REPORTS INDICATE A SURPLUS**

Prospective Yield of Farm Products Above Five Year Average.

Washington.—Forecasts of heavy harvests of the country's principal farm crops marked the July report of the department of agriculture. The prospective yield in most instances is larger than the average production for the five years 1914-18.

Throughout June better weather conditions increased the prospects of the output of every important crop. The improvement was reflected in a forecast of 28,000,000 bushels more in the combined winter and spring wheat crop than estimated a month ago; seven million bushels more oats, 8,000,000 bushels more barley and 2,000,000 bushels more rye.

The spring wheat crop is larger than last year's by 82,000,000 bushels, but the winter wheat crop is 114,000,000 bushels smaller, although it is only 45,000,000 less than the five-year average production.

Wheat of last year's crop remaining on farms July 1 was reported as 47,756,000 bushels, or more than five per cent of the crop. That, added to this year's prospective production, makes available about 856,000,000 bushels of wheat which, according to officials, will be ample to meet domestic requirements and leave a surplus for export.

The condition of the corn crop was reported not so good as a year ago, but the area planted shows an increase of 671,000 acres. Indications are that the crop will be 128,000,000 bushels smaller but 19,000,000 bushels larger than the five-year average.

**5000 DRAFT EVADERS HAVE BEEN CONVICTED**

Washington.—Five thousand draft evaders have been convicted in federal courts and given sentences of from 30 days to one year in prison, according to reports compiled at the department of justice. Thirty thousand cases remain to be investigated.

The result of the investigation shows about 10,000 cases of failure to register and an equal number of false questionnaires.

About 25 per cent of the men listed as delinquents were found to have enlisted in the American or allied armies without the knowledge of their local boards. About 40 per cent are accounted for on the score of the floating population. Some 20 per cent are considered those who made up of cripples and willful delinquents.

**ALLIES TO AID POLES**

Defense Against Bolsheviki Promised if Troops Kept at Home.

Spa.—If the Poles consent to retire within the natural frontiers of Poland the allies will give them all possible assistance in the event of their being attacked by the bolsheviki. This announcement was made here. The allies have sent a proposal to the Russian soviet government for an armistice with Poland on condition that the Poles retire within their natural Polish frontiers and that if the bolsheviki attack the Poles within these frontiers the allies will come to Poland's aid. A conference of representatives of all the countries is proposed.

**Car Supply to Govern Lumber Output.**

Portland, Or.—Whatever prosperity the lumber industry of Oregon and Washington may have the remainder of this year will be dependent almost entirely upon the ability of the railroads to furnish cars to move the forest products to market. This was the consensus of opinion at the mid-summer session of the West Coast Lumbermen's association held here.

**Army Now Numbers 209,901 Men.**

Washington.—The strength of the army, July 1, was 209,901, according to estimates given out by the department. Of this number, 15,523 were officers and 194,378 were enlisted men.

Russians Pressing Poles at Lemberg. London.—The Russians have crossed the frontier of Galicia and have reached the outskirts of Lemberg, according to a Central News Dispatch from Posen.

Danes Rejoice at Return of Schleswig. Copenhagen.—The signing by King Christian of the treaty effecting the reunion of Schleswig with Denmark was made the occasion of a holiday.

Italians May Have New Divorce Laws. Rome.—A national divorce law has been drafted by a parliamentary commission named to consider proposed legislation.

The Thor is a beautiful machine. On the outside it is glistening gray enamel. It looks clean—it is clean—and it's easy to keep clean.

The inside is rustproof and water-tight. There are no cracks or crevices.

**A Thor Will Last a Lifetime THE PRICE IS REDUCED**

**PROBE OF JAPANESE IMMIGRATION OPENS**

San Francisco, Cal.—The congressional committee on immigration and naturalization, now in California to make a study of the Asiatic immigration situation began a hearing here Monday.

More than 100 requests for representations at the hearing were received, Chairman Johnson stated. "We expect to spend some time in California visiting various parts of the state," Chairman Johnson said, "and before we are through may continue the investigation in Oregon and Washington. The situation is much more acute than we expected."

Congressman Albert Johnson of Washington heads the committee. The others are Walter N. Valle of Colorado, John C. Kleczka of Wisconsin, John E. Raker of California, Rife J. Wilson of Louisiana, E. Sabath of Illinois, John C. Box of Texas and J. W. Taylor of Tennessee.

Washington Penitentiary Has Blaze. Walla Walla, Wash.—Fire at the penitentiary did several thousand dollars' damage, burning about 40 tons of coal, a shed 50x200 feet, the sidewalk along the shed, the upper part of a gondola car and for a time threatening the prison shops. Spontaneous combustion is believed to have caused the fire.
