The New Way to Sew

A Machine You Don't Have to Tread

Just attach this machine to any electric light socket and sew all day if you like, without tiring yourself out. The old fashioned machine is a thing of the past. Let electricity work for you.

WESTERN ELECTRIC

Portable Sewing Machine

Here is a sewing machine that does the most perfect work, with scarcely an effort on your part. A slight pressure of your foot is all that is required to start and stop it or to control its speed.

This electric machine has a full size head without the old fashioned, cumbersome cabinet. When you are through sewing, just put its cover on and place it out of the way on a shelf or under a couch. It weighs no more than a packed suit case.

You'll be surprised to know that this electric machine costs no more than a foot-power machine. And a cent's worth of power runs it for several hours.

We'll Be Glad to Have You Try This Machine at Any Time at the Electric Shop
