

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$5,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—

We shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

The Range Beautiful

Smooth and plain, minus all the grease and dirt catch-alls of old-fashioned ranges—that's the

COPPER CLAD

Your new Copper-Clad will lend a note of cheerfulness to the kitchen. (One of the reasons why Copper-Clad users are "Range Happy" folks.) Let us show you this beautiful range and tell you about it.

"A Well Cooked Meal Done on Time"

A just reward for the patient efforts of any housewife, and one of the joys that comes with Copper-Clad ownership.

The COPPER-CLAD

has made for itself the reputation of doing the same good work today as it did yesterday; and Copper-Clad will bake and cook as good tomorrow as it did today.

Some folks call Copper-Clad the modern "Cooking machine."

PEACE KEYNOTE OF COX SPEECH OF ACCEPTANCE

Democratic Candidate Would Enter League, Immediately Ratify Treaty and State Interpretation of Covenant.

SAYS "BACK TO THE NORMAL" MEANS REACTION

Failure to Enforce Prohibition is Worse Than Law's Violation—Declares Present Congress Has Not Passed a Single Constructive Law, but Has Spent Time and Millions in Seeking to Make America's Military Triumph an Odious Chapter in History—Favors Repeal of War Taxes, Criminal Prosecution of Profiteers, More Adequate Supervision of Railroads, a National Budget System, and Woman Suffrage.

Here is a summary of the speech of Governor James M. Cox, Democratic candidate for president, at the notification ceremonies at Dayton:

League of Nations.—Would enter the league, immediately ratify the treaty and state our interpretation of the covenant in reservations as a matter of good faith and as a matter of precaution against any misunderstanding in the future. The interpretation to clearly show that the league is not an alliance and that its basic purpose is peace and not controversy.

Domestic Problems.—Would repeal war taxes; reduce federal taxation; suggest in place of excess profits tax, substitution of volume of business tax.

Profiteering.—Promises penalization under the criminal law.

Labor.—Stimulate Americanization. Writ of injunction should not be abused. No necessity now for the drastic laws of war days; guarantee of free speech; recognition of the rights of the principle of collective bargaining. Child life of the nation should be conserved.

Agriculture.—Federal government should sponsor agriculture and food production. Farmer should be amply compensated for his work. Favors municipal markets. Regulation of cold storage. Would increase area of tillable land.

National Prosperity.—Objective should be decreased tenantry and stimulation of home ownership.

Food Supply.—More adequate supervision of railroads; utilization of waterways.

Financial and Commercial.—Extols federal reserve act and merchant marine. Would extend facilities for exchange and credit and stimulate foreign trade.

National Budget.—Favors a national budget system. Would reduce armament expenditures on entering league of nations.

Republican Ungenerosity.—Republicans failed to recognize that America had saved the world or to appreciate the struggles and sacrifices of those who, in arms or industry, helped win the war. Present Congress has not passed a single constructive law, but spent time and millions in seeking to make military triumph an odious chapter in history.

Mexican Situation.—We have neither lust for their domain nor disposition to disturb their rights.

Disabled Soldiers.—Pledges immediate efforts to provide vocational training and favors employment of disabled soldiers of World War by Federal Board to supervise the rehabilitation of disabled soldiers.

Prohibition.—"Any candidate for the presidency who says he does not intend to enforce the law is more unworthy than the law violator."

Woman Suffrage.—Strongly favored.

Official Responsibility.—Opposed to "government by party"; pledges service to the people as a whole.

Education.—Federal government should not encroach on local control, but rather should create an enlarged public interest.

Campaign Contributions.—No narrow dividing line between the legitimate and the illegitimate, underlying purpose only determining.

Industrial Peace.—We want a change from the world of yesterday, from the old industrial world. We are at the "forks of the road." So-called "return to the normal" means "reactionism."

Dr. Clyde Mount of Portland was elected president of the Oregon State Dental association at the business session, which concluded the annual session in Portland.

Manufacturers and public service corporations in the Portland district use sawmill refuse for fuel to a greater extent than any other section of the United States.

The Buehner Lumber company at North Bend has begun construction of a monster smokestack. It will be of concrete 110 feet high with a diameter of 10 feet at the top.

Added 50% To Tire Mileage

A Boston tire dealer, for three years, has gathered data on Miller Tires. And he reports as follows:

Users find their tire mileage increased from 50 per cent to 75 per cent.

Blow-outs have been eliminated.

Uniform mileage has been accomplished.

Only six tires in 1,000 come back for adjustment—only five Miller Tires in a year.

A Louisville dealer compared wear and mileage on 116 styles of tires which he repaired. The constant Miller supremacy has caused him now to handle the Miller Tires only.

A California stage line made million-mile comparisons with 21 leading makes. And the Miller won by long odds.

You owe yourself a comparison on your own car. The Miller is the tire of the day.

Tread Patented

The Public Service Commission of Oregon Is Coming to Our Rescue

During these years of high prices of materials and labor, we have struggled to maintain our service to the public. We have done so without a penny of increase in our rates. We have borne the burden of the war and of reconstruction. While business as a whole, both large and small, has reaped unheard of profits, NOT A PENNY OF DIVIDEND HAS BEEN PAID TO OUR STOCKHOLDERS.

We are at the end of our rope. Our income is not enough to meet our expenses. So we have asked the Commission to increase our rates sufficiently to provide income which will produce:

1st Necessary Operating Expenses.

The many monthly items of expense of running our business.

2nd An Adequate Depreciation Reserve.

Money set aside to replace the plant as it is worn out.

3rd A Fair Return on Investment.

Just a fair rate of interest to the people who have invested their money in our business.

Could We Be Any More Fair Than This?

We have absolute confidence in the fairness of the Commission to adjust our rates so that they will be fair to you and us alike. We have confidence in the fairness of the public to readily see that our rates must be increased to meet increased costs of producing the service.
