

"You Can't Do Better"

Build a B. P. Round Roof Barn

When you put up a new barn you want to do away with all unnecessary supports and cross braces so that you will have a big storage capacity without increasing the size of your floor space.

That is just what the Round Roof Barn accomplishes. Its construction is strong and economical. The arched roof means a big storage room. The light timber construction makes this barn easy to build.

ANY SIZE

For your particular purpose a small barn may be all that is required. However, the plan of the Round Roof barn can be carried out on any desired scale. We will gladly supply you with complete drawings and specifications.

BOISE PAYETTE LUMBER CO.

ARGADIA

From our regular correspondent.

Mrs. Clyde Long, who is sick with typhoid fever at the Ontario hospital is no better at this writing.

Sam Henry is back home after a three weeks visit to his childhood home in old Kentucky. Now everybody was glad to see Sam and they gave him lots of good old Southern eats, but Sam was glad to get back to Oregon.

Darius Long and wife, from the Coast, motored through in their Chevrolet and will spend two weeks visiting relatives and friends in this neighborhood.

Miss Irene Edwards has returned home from Caldwell.

Herbert Ransom of Boise was down Saturday seeing after his father's ranch. Mr. and Mrs. Ransom are both in bad health and are staying with their son and his wife at Boise.

RABBITS RECEIVE ATTENTION

E. E. Horn, who is working with pests, took a recess this week for a few days from his work with pocket gophers in order to answer a call for assistance from the Jamieson neighborhood where the Jackrabbits are destroying alfalfa seed fields at a rapid rate. He went to the C. P. Crosby farm to assist the farmers to get started on a poisoning campaign.

FORDSON

POWER ON THE FARM

The Fordson Tractor needs no claim on our part. In every part of the United States and in the far corners of the earth over 100,000 Fordson owners are always glad to tell what they know about the Fordson.

They don't care particularly that the Fordson is built by the largest builders of tractors and automobiles in the world, except that they know that a few years from now if they want a repair part the make will still be in business.

Then last, but very important, they'll let you know that there's a Fordson dealer within a few miles of everybody in the United States.
