### Teachers Adopt Resolutions

The teachers of Malheur county, at the institute held at Ontario recently adopted the following resolutions:

That a county nurse should be employed by the proper authorities who shall give her entire time to the supervision of the health and physical welfare of the school children of the county.

That a local circle of the Parent-Teachers' Association should be organized and supported in every school district in this county.

That we as teachers do all that we can to secure an appropriation for the construction of the Owyhee Irrigation Project by writing letters and causing pupils and parents to do the same, to each of our five members of Congress.

That additional expense funds should be provided by the County Court for the traveling expenses of our county superintendent, the present allotment of \$200 being insufficient to meet the expense of traveling over a county equal in size to the State of Massachusetts.

That the salary of the state superintendent be increased to at least \$5000 and that of the county superintendent to \$2500, these salaries being in accord with advanced salaries in other lines.

That we as teachers desire to express our appreciation for the valuable suggestions and helpful instruction offered by the speakers and instructors who have taken part in our program; that we express our thanks to the Ontario Commercial Club, school authorities and citizens for courtesies extended us while in the city.

That we extend to our county superintendent, Mrs. Fay Clark Hurley, our appreciation for the untiring efforts which she has made since her election for the advancement of public education in this county.

J. M. McDonald, Chairman.  
Louise V. Kennedy,  
R. J. Davis,  
Committee on Resolutions.

## FORDSON

POWER ON THE FARM

The Fordson Tractor needs no claim on our part. In every part of the United States and in the far corners of the earth over 100,000 Fordson owners are always glad to tell what they know about the Fordson.

They don't care particularly that the Fordson is built by the largest builders of tractors and automobiles in the world, except that they know that a few years from now if they want a repair part the make will still be in business.

Then last, but very important, they'll let you know that there's a Fordson dealer within a few miles of everybody in the United States.

### Best of 22

The Eldorado Stage Co. of Los Angeles tested 22 leading makes on 12-passenger Packard buses. Not a tire was found to match the Millers in that extreme service.

## Some Costly Mistakes

Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

California stage lines are using Millers after million-mile tests with many rivals.

### The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons.

They constantly prove that Miller is the best tire built.

In extreme rear-wheel tests they require an average of 15,000 miles on Cords.

They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-time figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

### Treads Patented

Center tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.
