Shipping Carload of Apples a Day

C. C. Hunt, with a crew of 26 expert packers and sorters, will start Monday on the long job of preparing for shipment the big apple crop of the Nyssa country.

The packing will be done in the vacant store room in the Hotel Western building. A large room for receiving the apples has been built in the rear of the building, which is proving a great convenience in the handling of the fruit.

Besides the apples from his own orchard and those of his neighbors, Mr. Hunt has the contract for packing several carloads for the Idaho Products company and he anticipates a very busy time for the next six weeks. A carload a day will be sent out to spread the fame of Nyssa as the natural home of the big red apple.

All For the Want of an Automobile

"It's seldom, if ever, you find them together, the Girl, the Time and the Place." Thus soliloquized a young Lochinvar of Nyssa the other evening. He had a date to elope with a Parma girl. He had the girl and the time, but how to get that girl to the place—any place where there was a preacher—caused him much anxious thought. After the wheels in his dome had revolved until they began to creak, a possible solution appeared. He approached P. M. Warren, the mill man, with a request to borrow the latter's faithful delivery car, at the same time admonishing the genial candidate for mayor to keep the proposed elopement "under his hat." But the course of true love never did run smooth, and Phin didn't see how he could pare the car. As for keeping the romance a secret, he was careful to tell only the Journal and a few other friends. At last accounts, the girl had changed her mind and now doesn't want to elope at all, and the Nyssa girls say it serves the young man just right.

A formal welcome to the faculty of the Nyssa public school will be held at the Hotel Western this (Friday) evening when a public reception will be given for that purpose by the Community Service club.

Ford Rolls Over, Then Continues Journey

Caught in a terrific wind and rain storm near Waterbury, Connecticut recently, H. C. Fortin and his Ford car stopped en route long enough to turn over several times before proceeding on their journey.

"The velocity of the wind was increasing so fast," said Mr. Fortin, that I decided to seek shelter. Then, without the least warning, the wind raised the car bodily from the road, at the same time blowing the top some five hundred feet into a meadow. The car overturned, and I was rolled under it, but with the first turn was thrown clear. The car rolled over and over for a distance of about one hundred and sixty feet. It stopped right side up—with radiator caved in, bows broken, brackets bent, fenders broken and bent, and windshield off at the dash. I found the seat cushions two hundred feet away and the tools all over the road.

"I inspected the gas tank, oil garage, and water in radiator, but found nothing disturbed. Pulling out the choke, I primed the engine, gave a quick turn, and the motor started just as though nothing had happened."

Two of Mr. Fortin's friends witnessed the accident.

HEALTH FIRST

Every normal person desires health. Health is only maintained or gained thru natural methods. Drugs or the knife are unnatural. The Chiropractor adds nothing to nor takes anything from that system which God has made as a perfect, coordinate whole. The trained Chiropractor is a mechanic, adjusting the most delicate machine ever placed in this universe, the human body. Perfect spines, means perfect nerve force and perfect health. Subluxated vertebrae of the spine mean improper nerve force, therefore disease organs or parts of the body. Spinal adjustments removes the cause, health follows. Let us explain chiropractic to you.

Yours for health,
