## HARSH TERMS ARE | COURT DECIDES IN IMPOSED BY ALLIES

AGREE THAT GERMANY MUST PAY 226,000,000,000 GOLD MARKS FOR WAR DAMAGES.

According to Plans Payments Will Be Made in Yearly Installments, Coverering a Period of Forty-two Years.

Paris.-Full agreement on reparalons, German disarmament and all other important quetions before it had been reached by the supreme council when it adjourned to meet in London on February 21.

Germany will be called on to pay n annuities on a sliding scale 226,-000,000,000 gold marks. Her exports, in addition, bear an export duty of 12 per cent for the allies.

On the basis of last year's exports, this would give the allies 1,250,000,000 gold marks, or 12 per cent of whatever money in which the exports are paid for. Thus, it is estimated, the first payment made by Germany will be 3,250,000,000,000 gold marks, the export tax being paid in cash.

It is pointed out that, besides being a sure method of collection, it will act as a protective tariff in countries near Germany which are likely to be flooded with goods made in Germany at a low

Penalties agreed on for violations will apply to all agreements alikereparations, disarmament and coal deliveries. A feature of the reparation plan, from the French point of view, is that it associates the allies in the benefits of Germany's prosperity.

The council likewise approved a plan for a 200,000,000 franc corporation to aid Austria.

showed it provided that the 12 per cent tax on German exports would extend over the same period as the stipushe would promise something she lated reparation payments. Germany is to be allowed an 8 per cent cash discount on payments made in advance. (The total of 226,000,000,000 gold marks of German reparation payments called for by the plan would equal approximately \$56,000,000,000 at ormal exchange rates.)

It is understood that, for the purpose of inducing Germany to pay off her reparations debt as rapidly as possible, she would be allowed discounts on her annual payments. These discounts would be fixed at 8 per cent the first two years, 6 per cent the two following and 5 per cent the remaining thirty-eight years.

As a guarantee against Germany's defaulting on her payments, the committee recommended that in such an event German customs might be seized and new or increased taxes be imposed.

Sharon, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E.
