**Assistant Club Leader to Be in Malheur Co.**

Miss Helen Cowgill, Assistant State Club Leader, is going to spend several days from May 4, to May 10 inclusive in Malheur County visiting the girls' clubs. The members of the Sewing and Cooking clubs are looking forward with a great deal of pleasure to Miss Cowgill's visit. It is hoped that as many of the parents as possible will be present at these meetings.

Miss Cowgill is bringing with her work done by girls in the various parts of the State. This will give each girl a chance to see exactly how the work is to be done, and will no doubt aid them materially in completing their own lessons. The baking lesson will be demonstrated for the cooking clubs and if time permits other work will be taken up.

**Can't Improve on Nature**

"How often in our mad scramble to improve on nature's products we have been compelled to admit in the end that we have sacrificed one point to gain another, and made little real progress," says H. A. Scullen, bee specialist at O. A. C. "In few cases is this more true than it is in our efforts to find a substitute for nature's own sweet, honey."

In addition to having a greater sweetening power than granulated sugar it has in it, asserted Mr. Scullen, the so much needed minerals which are all but removed entirely from the sugar as it is refined. It is vastly superior to corn syrup or molasses since the former is so lacking both in sweetening power and mineral, while the latter contains too much lime, added during the refining process, to be wholesome.

"Furthermore," the bee man declares, "the honey is the only commercial sweet now known to contain vitamins, those important food elements we have been reading about so much lately, and on top of all this there is that flavor and aroma nature's own breath, in every spoonful."—Pacific Homestead.
