

THIS STOVE HAS BEEN FAMOUS FOR 50 YEARS

Fifty years ago the first "Oak" stove ever built came from the shops of the Round Oak Folks. It was an immediate success. Hordes of imitations followed but none has equaled the genuine, which has been steadily refined through the succeeding generations. This genuine Round Oak Heater that we offer is the most famous stove in the world—and satisfied users have given it its fame. We know that today, as ever since 1871, this stove represents the best value on the market.

SIGNS THAT FORETELL BETTER TIMES ARE COMING

Signs of coming better times are piling up steadily from week to week. During the past eighteen months industrial deflation has certainly touched to the bottom, and that steady improvement from now on may be safely expected is indicated by the recent statement, made public by the heads of the Federal Reserve Bank, that business conditions have definitely "turned the corner."

Another evidence of improvement is the railroad returns for August, when 187 Class 1 railroads in the United States showed net earnings in August of \$86,363,000 which is indeed a pleasant showing when compared with the August deficit of \$155,817,000 piled up in 1929.

A few days ago the Baltimore & Ohio Railroad ordered 2,000 freight cars, and that is believed to be an example of the crying need in the part of transportation systems throughout the United States for equipment. Within the past few days, Pennsylvania and Mid-Continent grades of crude oil have been advanced in price from 5c to 35c the barrel, and in view of the decreased production these advances are deemed by many well-posted observers to be part of a general movement to

Little Wonders, Madam—

that you can work yourself with paint, varnish or enamel

WE have established a service for women and men who want to do small jobs of interior painting, varnishing or refinishing of furniture, floors, bath rooms, walls, bric-a-brac, basketry, brackets, etc.

It's a free service. You simply tell us what you have to refinish, how finished now and what effect you want to get.

We tell you how to do it—in detail. What kind of material to use. What kind of brush. What method. Where to buy.

You can work transformation in home things that will surprise you. Old bedsteads, tables, chairs, floors, bath tubs, etc., are old really only on the surface. Paint, varnish or enamel them and they're new!

We make a special line of paints, varnishes, etc., for just this kind of work—Fuller's "Home Service" Paint products—for you to use.

They dry perfectly, spread easily and smoothly, and give every desired result. You'll be surprised to learn what you can do,—once you've used them.

Our experience with paints and

varnishes much higher price levels for crude oil.
