Twilight is made possible by the earth's atmosphere and its power to reflect the sun's rays. For a certain time after the sun has disappeared below the horizon the sun's rays pass through the earth's atmosphere at such an angle that the light rays are reflected and refracted.

**Weather Rots Unpainted Buildings**

Can You Afford to Rebuild in a Few Years?

YOUR investment in buildings depreciates rapidly unless it is protected from the weather by paint.

A rotting building is a heavy expense. It means either costly repairing or total rebuilding. Paint saves this cost. Use paint now.

The next question is what paint to use. Use the best. It costs less in the long run.

The best paint spreads easily—it saves labor cost. It covers more surface per gallon than "cheap" paint.

And the best paint will serve you five or more years longer than "cheap" paint.

So paint your buildings when they need it and use the best paint. That's a dollar-saving policy.

The best paints are scientific in formula and preparation. We've made them for 73 years—to meet the weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.

**CLUB LEADER REPORT**

Report of Club Agent for August Introduction

This report covers a period of 31 days from August 1st to August 31st inclusive. The projects worked on during this time were Pig Poultry, Corn, Sewing, County Fair, County Agent work, Club picnics and Dairy Herd Record Keeping. During the month 17 days were spent in the field and 10 days in the office.

**Pig Project**  
 Two meetings were held with a Brogan Pig Club and one of these meetings held with the Oregon Slope Pig Club. At these meetings the judging of pigs and dairy cows was taken up. Each Pig Club is planning on entering a team at the County Fair judging contest.

Twenty-two personal visits were made and assistance given the members in keeping their records and in fitting their pig for the fair.

**Poultry Project**  
 Ten personal visits were made to Poultry Club members at Moore's Hollow and Vale. The majority of the boys and girls are taking fine care of their birds and should be able to put on a very creditable exhibit at the county fair. The Moore's Hollow Poultry Club was given assistance in preparing a demonstration for the local affair and one meeting was held with the Valley View Poultry Club.

**Corn Project**  
 One meeting was held with the Big Bend Corn Club and one tour was conducted during which the entire Club visited the members' corn fields. The fields of 13 corn club members were visited, pictures taken and suggestions made on the selection of corn for exhibition.

**Sewing Project**  
 The Bonita Sewing Club held a sewing demonstration and exhibit on the 16th. Four girls demonstrated how to make different kinds of stitches and told their uses. The Farm Bureau offered prizes on the exhibits.

**Dairy Herd Record Keeping**  
 Two and one-half days were spent in collecting the equipment from the various clubs and in returning that which was borrowed from the various people in the different communities.

**Picnics**  
 The Brogan Pig Club held a picnic on the 11th. In company with Mr. Smith and the County Club Agent they cooked their lunch on the banks of the reservoir and then went swimming.

The clubs at Moore's Hollow, Jefferson and Riverdale held a picnic together at Watson's on the 18th.

Two days were spent in preparing material for club demonstrations at the county fair.

**Miscellaneous**  
 assistance was given the County Agent on the poultry work, at the culling demonstration and the poultry tour. Meetings in conjunction with Mr. Kinder were held with the various local leaders. While in the office 8 new articles, 8 circular letters with a total of 895 copies and 51 personal letters were written. 21 people called at the office.

**THIEVES BUSY IN CRANE**

SEVERAL THEFTS REPORTED DURING TWO WEEK PERIOD.

From Crane American. Light-fingered artists have been getting in their work in Crane during the past ten days and the question is, is it local thieves or work performed by outsiders. At any rate the different thefts have been so cleverly executed that no trace of the miscreants can be discovered.

The first act subject to grand larceny was last week, when a new harness was lifted from a P. L. S. Co. teamster at the big barn of E.O. Foster on First street. The night marauder with his pillage was traced as far north as the Crane-Burns highway and there the clue ended.

The next scene of thievery was at the residence of Mrs. Mory Douglas, who is at present on her homestead in the Steina mountain country. Jim Young, brother of Mrs. Douglas, had a large quantity of supplies for his sheep camp in the residence and cellar. The night prowler got away with all the supplies, and that is about all the owners know thus far.

E. D. Aspinall, special agent for Standard Oil Company, came near losing several tires from his garage one night last week. Hearing the horn of his car blowing in the still hours of the night Mr. Aspinall proceeded to the garage when he saw two men disappearing in the darkness in a hurry. He saw that one of the car wheels had been removed and the thieves had probably started to take off the tire when one of them came in contact with the button that blows the horn. I proved to be a novel burglar alarm.

Seems to Be Nature's Law. You can't keep a dead level long, if you burn everything down flat to make it. Why, bless your soul, if all the cities of the world were reduced to ashes, you'd have a new set of millionaires in a couple of years or so, out of the trade in potash—Oliver Wendell Holmes.

**ROCKVILLE**

Mrs. Sam Naramore is in Rockville this week, where she is having her son Rex treated for adenoids.

While Alfred McConnell, Clarence Mullinix and George Strode were on their way to the postoffice Thursday evening in a Ford car a bolt came out of the steering gear, causing them to lose control of the car, which turned over twice. They were all badly bruised, but no one was seriously injured.

School will open here on September 18th with Miss Beatrice Brown as teacher. We hope to have a very successful term of school this year.

Mr. and Mrs. Frank Mullinix and son Stanley were dinner guests of Mrs. C. A. Miller on Wednesday.

Perry Maupin stopped over night at the Frank Mullinix place Tuesday night.

Mrs. C. A. Miller called on Mrs. Andrew Greeley Tuesday afternoon.

Miss Bertha Leake and Mrs. Andy Maysonholder called on Mrs. Frank Mullinix Tuesday afternoon.

Wm. Leake is helping George Greeley put up his second crop of hay this week.

Chester Mullinix went to Caldwell Sunday to stay a couple of weeks before school starts.

Clarence Miller went to Caldwell after lumber to build a barn at the school house, which has been needed for some time.

J. M. Mullinix and family drove to Mahogany mountain Sunday after chokecherries.

Miss Edith Scott of Jordan Valley has been visiting her aunt, Mrs. Duncan MacKenzie, the past week.

**WESTFALL**

Most of the farmers of the valley have their second crop of hay in the stack.

Cleve Cammann has sold his hay to Henry Wakerlig, and Louis Napton has sold to Rufino Arrien. The consideration in both deals was \$8 per ton.

School commenced here Monday with Mr. and Mrs. A. M. Highsmith as teachers.

Frank Scott and Myrtle Estes will attend the Ontario high school this year.

We understand that Mrs. Oliver Sandy will teach the Wheaton creek school this winter.

Mrs. L. M. Estes and children, Myrtle and Leo, were in Ontario Saturday and Sunday.

Oscar Presley has rented the Jay Branson ranch and will take possession in the near future.

Frank Smith and Hugh Richey hauled a load of stock salt to Flagz Prairie last week.

Iven Hart and wife motored to Ontario Sunday.

Rufino Arrien recently bought a band of young ewes near Stein's mountain and are trailing them to his ranch on Clover Creek.
