ney has been a subject of de- bate by framers of the American tariff, having been at one time or another both exported and imported by the ton. There are between 800,000 and 1,000,000 people in the United States alone who keep bees. The average anual value of honey produced in this country is $90,000,000, while wax, as a by-product, brings about $3,000,000. There are men who support their families, educate their children, own their homes, take trips, and lay something aside for their old age, from the honey they produce.

There are localities that measure their crops, not by the pound, but by the ton or even by the carlot.

Mike Joyce is in town this week.

Charles Roe, representing Davidson Grocery Co., and Vanderwater or Allen and Lewis, were business visitors here last week.

STEAMER BURNS AT SEA—ALL RESCUED

San Francisco—All the passengers officers and crew of the burning steamer City of Honolulu, which was abandoned at 10:10 a.m. Thursday, are safe, acording to wireless advices received by the Federal Telegraph company from the freight steamer West Faralon.

The West Faralon reached the scene early Thursday afternoon, and had taken all of the people aboard by 3:41 p. m. The City of Honolulu carried 72 passengers and 145 officers and members of the crew, a total of 217.

Fire broke out aboard the City of Honolulu shortly after 5 o'clock Thursday morning, and spread so rapidly that all those on board had to take to small boats. The sea was like glass when the ship was abandoned.

The ship was homeward bound to San Pedro, Calif., from Honolulu and was 1405 miles east of Honolulu and 670 miles southeast of San Pedro when the fire broke out.

Capt. H. R. Lester of the City of Honolulu reported later in the afternoon that all were aboard the West Faralon. The condition of the City of Honolulu, which was reported as a gigantic pillar of flame and smoke, was declared by Captain Lester to be critical. The West Faralon lay a mile away.

Although three other vessels, the Marson liner Enterprise, the army transport Thomas and the private yacht Casinana of Edward L. Doheny, Los Angeles oil magnate, heard the distress signals from the City of Honolulu before the West Faralon did, the freighter was only 50 miles away when it started to the rescue shortly before noon.

Only brief messages had been received here tarly Thursday night, so it was not known under what circumstances the passengers and crew escaped from the burning vessel. Apparently the sea remained smooth throughout the day, for Capt. H. M. Walk of the West Faralon reported conditions were favorable.

As the West aFralon, a shipping board freighter, operated by Struthers & Barry of San Francisco, has only limited accommodations, it is believed that many of those rescued from the City of Honolulu will have to remain on her decks until larger vessels arrive. The West Faralon's registered tonnage is 7451. She was bound from San Francisco for Yokohama.

Less than half a dozen of the passengers were from the eastern part of the United States. A large number were from Honolulu, most of the rest from Los Angeles and other other southern California points, while the remainder came from other parts of the Pacific ... Fifty-six of the passengers ... in the saloon, ... Plemmer ... school ... was traveling third-class, with a baby girl.

The City of Honolulu originally was the German passenger liner Friedrich der Grosse, built at Stettin in 1896, and used in trans-Atlantic travel until 1914, when she was interned in an American harbor. When the United States entered the war, the liner was renamed the Huron, and used as a transport, carrying troops to France.

After the war the Huron was brought to San Pedro, Cal., and was reconditioned for the Los Angeles Steamship company. The City of Honolulu and her companion ship, City of Los Angeles, formerly German steamer Kronprinzessin Cecilie, recently began the first direct passenger service with Honolulu that Los Angeles ever has ...

AUTO THIEVES CAUGHT

LOOT TAKEN FROM CARS IN VALE FOUND IN HOTEL ROOM.

Two Idaho youths who gave their names first as the Smith brothers but later as Mead Thomas and Ellis Poff of Nampa, were arrested Tuesday night for looting cars belonging to A. E. McGillivray and Glenn Mansur of loose tools and other things while the cars were standing in front of the Christian church on Sunday night. Part of the stolen stuff was found in the room occupied by the boys at the Arlington hotel and part in their car. They had sold some of it at Jamieson. The boys had an old Ford which they were attempting to sell in Vale, and Deputy Sheriff Phil Schnur became suspicious of its ownership and found it has been reported stolen from Blackfoot, Idaho.

The two accused thieves are being held in the county jail.

Someone stole several articles from R. N. Cole's auto on Tuesday night but it is not thought these two boys did this job.

COMMUNITY CHURCH NOTES

COMMUNITY CHURCH NOTES.

Remember, we are now holding preaching services both morning and evening. Morning in Methodist building and evening in Presbyterlan building.

Midweek Forum Wednesday night at 7:30. Write your question and mail it to the minister and then come out and hear us discuss it. Special music at all services.

We urge you to call us at any time for any community work that should be done. We are here to serve and happy when working. Help us to be happy.

J. J. Fleming, Minister.

MALLETT NEW DIRECTOR

YOUNG RANCHER OF DISTRICT NO. THREE ADDED TO BOARD OF WARMSPRINGS.

J. S. Mallett was elected director of the Warmsprings Irrigation District from District No. 3 at the annual election held on Tuesday. He will serve for three years. The election was quite hotly contested between the successful candidate and Rex Marquis.

Director Mallett will take the place vacated by Gerald E. Stanfiel whose term expired this year and whose business necessitated his retirement from official work in the district. The new director is looked upon as a valuable addition to the board.

MILLET THRESHED B

180 POUNDS OF SEED BROUGHT OVER 400 BUSHELS FROM TEN ACRES.

After he had harvested a crop of grain from a small tract of about 10 acres this year, John Boston sowed 180 pounds of millet with some alfalfa seed mixed in it. This week he threshed the millet and got 40 bushels to the acre. The straw with the alfalfa mixed with it will make fairly good feed, he says.

Millet is one of the richest feeds known. The variety sowed by Mr. Boston is a new one and seems to be well adapted to this section. His success may point the way to producing more dollars from land used for grain crops.

PINNEY IS RE-ELECTED

CHOSEN DIRECTOR AGAIN FOR WILLOW-ALDER DISTRICT AT ANNUAL ELECTION.

At the annual election of the Willow-Alder Irrigation district held the first of the week, W. J. Pinney was re-elected a member of the board of directors.

Seasoned Wood ...

Packing boxes made of ... seasoned wood ... handling ... those made of green wood. The reason is that the fibers of the moist wood shrink away from the nails as the wood dries and in this way lose their grip.
