Germany and Italy are to be paid for a long time, since neither can do money to the other.

Since washing dishes makes the hands red, it's a pity you can't wash dishes with your face.

The best thing about women participating in public affairs is that it keeps the affairs public.

Sometimes the punishment for speeding is only a blowout, but that means a term at hard labor.

It seems to have reached a point where some fellows consider it a bit risky to be looking for a job.

Tourists visiting the picturesque ruins in Europe this summer must overlook the Geneva conference.

After that plesiosaurusiasco there was no kick whatever in the 49-foot crocodile story from Patagonia.

Apparently, it is the intention of Europe to try every known method to get our money except through us.

General Wu in a military victory and a big man. If he can only succeed as a mender of China he will be still bigger.

The radio will keep more husbands at home nights when it is developed to where it can draw out the nagging voice.

If you think you have troubles, consider the case of the auto driver who was held up and robbed while charging three.

That hand-to-hand transaction is indicated by the fact that none of them as yet has tackled a retail meat profeer.

"Automobiles are now foolproof," says a magazine. But the real problem is how to make pedestrians shock-absorbers.

Even if Esperanto were adopted, the various nations will have no difficulty in understanding any talk about a ton.

When a he vamp gets into action, folks begin to feel that somebody is playing hockey from the municipal rock pile.

The most remarkable thing about the rapid spread of radiophones is that it has occurred without a law forbidding it.

Radio is a great thing, but when summer comes its high frequency waves cannot compare with the common river variety.

"Radio Replaces Pigeon," says a headline. Not altogether. Thank goodness! we are not yet ready to be content with radio pige.

A woman should at all times look her prettiest, according to a speaker. If not, why has she her vanity case with her at all times?

British scientists say our faces are growing narrower. The minds of so-called reformers also have shown a tendency in that direction.

Newspaper jokes have one advantage over the jokes your friends tell you—they don't feel like laughing at them if you don't have to.

A device has been perfected to record everything done by a man when up in the air. Voters have been doing that with politicians for years.

When the fathers decreed that children should be the asylum for the feeble-minded, they did not mean to make them a nuisance.

Many are being commanded to wash their hands. It would be better for those who have germs to remain at home.

The safe door opens so conveniently that it won't damage it by knocking combination, and thus prevent national expense for repairs.

Statutes arise to ask who is so attractive to men as a psychological question. The answer is: widows are attractive to their husbands left them.

## \$1,441,486 A YEAR'S DISASTER RELIEF COST

### Red Cross Aided 145,000 Victims in United States—Losses Total \$30,000,000.

Seventy-two disasters, with hundreds reported killed and injured, and more than 145,000 either homeless or requiring assistance, called for annual relief measures and the expenditure of \$1,441,486 by the American Red Cross during the fiscal year ending June 30, 1922, according to a statement issued on the forthcoming annual report of the Red Cross. The greatest toll of life was taken by hurricanes and tornadoes, while the overflowing of rivers, the breaking of dams and torrential rains drove the greatest number of people from their homes. The property loss was estimated at more than \$30,000,000.

The year's disasters reported included twenty-six floods, nineteen tornadoes, fifteen fires, four epidemics, two theatre collapses, two shipwrecks (one an airship), and a bridge collapse, mine explosion, railway collision, and a drought. Of the floods in the United States that at San Antonio, Texas, caused the greatest property loss, \$8,000,000 and the high mark of fatalities—100, while the flood in the vicinity of Vicksburg and Natchez, Miss., forced 31,000 persons from their homes.

#### A National Calamity

In the Red Cross disaster relief records there will probably remain for many years one disaster which touched nearly every state with a sense of horror and of loss. This was the distressing collapse of the roof of the Knickerbocker Theatre in Washington, D. C., resulting in ninety-six deaths and 125 persons injured. Situated in the center of the beautiful Northwest residential section, this motion picture theatre was patronized by many persons of prominence both in the official and civil life of the national capital, whose family and personal connections radiated out over the entire country. The horror was intensified by a terrific snowstorm which, though it retarded, did not check the Red Cross relief.

#### Airship Crash Finds Aid at Hand

The crash and destruction of the U. S. Army's large airship Roma in Virginia last February with the loss of 34 officers and men and 11 injured was the first disaster of its kind to call for Red Cross relief in this country. The suddenness of the accident tested the preparedness of the organization and of the Chapter at Hampton, Va., but the response was immediate and relief furnished the survivors, also funds for the expenses of relatives of the dead, who came from long distances to claim their own.

In the year's overseas record for aid rendered by the Red Cross are two fires in the Philippines, one in Manila, which destroyed 1,000 homes, with a loss of \$1,300,000 and 2,000 persons made homeless, the other at Tondo, which drove 3,000 from their dwellings. In medical relief that was quick and effective the smallpox epidemic in San Domingo, which had a total of 22,000 cases with 225 deaths in a single day, tested the readiness of the Red Cross for action, and the same can be said of the San Domingo hurricane, which killed 12 persons and reduced the homes of 182 persons to wreckage. A flood in San Salvador, with a death toll of 12,000 and 2,000 refugees, was effectively handled by the local Chapter of the American Red Cross.

#### Relief Machinery Perfected

The year has seen the further perfection of disaster relief administrative measures in every field of American Red Cross activity, and that the work may be carried on to still greater accomplishments the American Red Cross is appealing for widespread renewal of membership during the annual Roll Call, to be conducted this year on Armistice Day (November 11) to, and including, Thanksgiving Day (November 30).

### Red Cross Roll Call Heard World Around

The Annual Roll Call of the American Red Cross for registration of the membership for 1922 will begin on Armistice Day, November 11, and close on Thanksgiving Day, November 30. The ground work for this stupendous task of re-enrolling the membership throughout the world has been laid in a plan for the first complete and comprehensive system of registration of the Red Cross membership in all its 3,300 active Chapters at home and abroad.

An important feature of the round-the-world Roll Call campaign will be a universal effort to re-enroll the service of war-time Red Cross workers in the peace program by their participation in the Roll Call. In this way the vast army of volunteers will once more affiliate with the work of the Red Cross in its manifold phases. Co-operation also has been assured by Government and private maritime interests in a deep-sea Roll Call that is designed to reach every member or potential member in every part of the world who may be on voyage or temporarily in any part.

Members of Chapters will adopt the home canvass plan of canvassing which originated in Pittsburgh, where last year it resulted in a membership increase of 20 per cent. All records in this year's campaign will be kept on standard size cards to be filed by each Chapter for future use.

#### A New Vamp

There's a new vamp in the world, and it's a big one. It's the vampire of the Pharisies. "The Pharisies were a mean, meanly lot. One day one of them gave our Lord a penny and our Lord held it out in his hand and looked at it with scorn and said, "Whose subscription is this?"

#### Worth Striving For

There is always in every neighborhood some one man that everybody looks up to and patterns after. Are you that man in your own neck of the woods?

### EATS ENOUGH FOR FOUR MEN

Probably Largest Human Consumer of Food in the World Threatens to Afflict Russia.

Highly interesting is the coincidence that the largest human consumer of food in the world should be a Russian, and, though at present outside that distressed country, he is announced as anxious to return to it in order to go to work on his father's farm. Nature has a queer habit of displaying extremes simultaneously as if it just with the observer.

The giant, Kazanoff by name, is described in the Journal of the American Medical Association as being nine feet three inches tall and weighing 225 pounds, his proportions being exceptional. Four meals a day are necessary to stoke this physical engine, having his evening meal of 24 hours he will consume from four to six pints of milk, from fifteen to twenty eggs, four pounds of meat, five or six loaves of bread and large quantities of potatoes, beans and other vegetables, washing down this gargantuan repast with from four to six pints of wine and eight to twelve pints of beer.

Tired of the monotonous life of a circus freak, this man mountain longed for his native Siberia, where his father is a farmer in moderate circumstances, and soon will leave Hungary for his home. The hope is strongly expressed that famine conditions are not prevalent at his destination, for the reason that, as he needs the quantity of food that will feed four average healthy men, he will be four times as hungry as his neighbors and therefore will become a menace to himself and the community. — Cincinnati Enquirer.

#### When Joking is Dangerous

Husbands should be careful, how they spring jokes at the table. And wives should be alert on guard against the consequences of a surprise that amounts to a shock in certain cases—such as that at New York recently, for instance.

Men who toast off jokes at the table and cause their wives to laugh so suddenly that they pull a piece of meat into the trachea and choke to death have a grave responsibility. Of course, the habitual joker who gets a fresh stock every week runs no such risks. His wife is immune to laughter at his "funny cracks," and stands in no danger.

But fellows who are pleasant only once in a long time, and who "pull a joke" perhaps twice in a lifetime, should time their efforts so that their wives have not a mouthful of meat handy to pull into their windpipes. For that is not what windpipes are for, and they resent intrusion of solids.—Exchange.

#### Joke on Famous Composer

A certain newly rich person with more money than culture called on M. Massenet and said that he had seen his photograph in a paper and had read that he was "a clever pianist." Would M. Massenet play a few pieces at a little party? He would be well paid of course!

The world-famous musician was greatly amused. "Certainly," he replied. "What night?" "Thursday." "Thursday? What a pity! I am engaged on Thursday. But I can give the address of a friend—an excellent pianist, who can play all the modern dances beautifully."

So saying, Massenet gave the unfortunate newly rich the address of Saint-Saens! Obviously the victim of Massenet's joke had never heard of Saint-Saens, for he called on the distinguished composer and was promptly kicked out. Saint-Saens brooded over the insult for some hours before he saw the joke.

#### Timely Advice

Brown had attended an auction sale of furniture and antiques and had bought a grandfather clock. After the sale he looked round for someone to carry his purchases back to his house, but, alas! he could find nobody.

So at last, in despair, he decided to be his own beast of burden. After some difficulty he managed to strap his clock onto his back, and trudged off toward home.

A burly navy happened to come round the corner rather abruptly, and a collision resulted.

"I'm sorry," gasped Brown. "So am I," said the navy, rising from the gutter. "If you can't blow your horn why don't you buy a wrist-watch?"—London Tit-Bits.

#### Just Matter of Zeros

Two French women were talking at a public bar. Of course, since they were not talking about horse racing, they were talking about politics.

"The various national debts go up into trillions of francs," declared one, with the air of a man who is saying something astounding.

"The other didn't blink." "Trillions, I say," thundered the first. "Do you know what a trillion is?"

"Yes," drawled his friend, "the same as a billion, only a lot more zeros."

#### Papal Hat Worn in 850

Originally the tiara or triple crown of the pope, was a plain high cap, much like those in which dogs of Venice are often represented in oil pictures. It was first introduced by Pope Nicholas I, in 850. Just what the first coronet was added is a matter of uncertainty, but the second was placed by Pope Boniface VIII in 1295 and the third by Pope Urban V, about 1368.

#### Correcting a Saddle's Nose

For the correction of saddle nose and tip irregularities Lewis makes an incision on the under surface of the tip of the nose parallel with the long axis of the nostrils, converting the nasal tip into a hood. The implant or transplant used to straighten the nose is inserted into this pocket.—New York World.

That's All.

## RED CROSS HEALS WOUNDS OF WAR

### 25,000 Disabled Ex-Service Men in Hospitals After Four Years of Peace.

#### CHAPTERS' FIELD OF SERVICE

Every Veteran Needing Help Gets Individual Attention of Sympathetic Workers.

When on November 11 the world halts to observe the fourth anniversary of Armistice Day, and the American Red Cross inaugurates its Annual Roll Call for the enrollment of the 1922 membership, the people of the United States may well pause to think of the unparalleled contribution to the cause of peace made by our Army and Navy in the World War. The glory of the wounds of war remains. They are not healed in a day, in a year, nor in four years. And on Armistice Day there will be under treatment in Government hospitals over 25,000 ex-service men, broken physically by wounds, exposure, nervous strain and exhaustion incident to their service in the war.

The Government without stint is undertaking to furnish these disabled men with the compensation and medical care to which they are entitled, yet their special care is a duty of the Red Cross. Why? Because the Government cannot handle the mass of ex-service men individually; it must handle these men in bulk under a standardized policy. The Government has neither the authority, the funds or the equipment for working out the problem of the individual man. There is where the American Red Cross finds its greatest field for service, aiding through its very active Chapters in reaching the disabled man with immediate practical help, assisting his family while his claim is emerging from the process of adjustment, furnishing articles of comfort, funds to tide over the difficult periods, the friendly touch of personal encouragement, recreation and worry-dispelling amusement. It is the warm hand of sympathy and understanding which the American Red Cross extends to the majority of these disabled ex-service men, some of them friendless in the whirl of life, thousands of them with wives and children dependent upon them, and hundreds of them frequently helpless in the face of grim necessity.

#### 2,679 Chapters Aiding Veterans

In this work, upon whose accomplishment the American Red Cross is urging a record-breaking enrollment in the Roll Call which opens on Armistice Day and closes with Thanksgiving Day, 2,679 Chapters in all parts of the country are engaged. This is 279 more than were working for ex-service men last year when approximately \$10,000,000 was expended by the National Organization and the Chapters working together in harmonious unity.

For the current fiscal year National Headquarters appropriated \$3,000,000, an increase of \$385,500 over the amount spent for the work among ex-service men in the year ended June 30 last. Since it is estimated that the Chapters will expend close to \$2,000,000 from their own funds, the grand total of Red Cross expenditures for this single year is expected to reach the \$10,000,000 mark by June 30, 1922.

#### Hospital and District Office Work

During the fiscal year a total of over 1,000 persons, paid and volunteer, has been engaged in Red Cross duty in hospitals or district offices of the U. S. Veterans' Bureau. An average of 9,000 new cases require definite and particular attention each month. The demand for Chapter-made articles for hospital patients is constant.

During last year Service Claims and Information Service at National Headquarters handled 37,200 compensation and insurance claims, 24,500 allotment and allowance cases, and 9,700 miscellaneous claims. Since February, 1919, it has disposed of 64,174 allotment checks payable to veterans which the Post Office Department reported undeliverable.

The Chapter is the unit of the Red Cross organization which is accessible to every disabled veteran or his family. Between July 1, 1921, and June 30, 1922, the Chapters had reported 1,065,102 instances of service to ex-service men and their dependents, at a cost estimated from reports now at hand of more than \$5,340,000.

The basis of this far-reaching work of the Red Cross is the individual needs of the disabled veteran to the end that he may obtain his rights under the law, that his special wants may be immediately supplied, that his own and his family's situation may be rendered happy and cheerful, and that their outlook for the future may visualize incentives for independent and fruitful effort.

#### Spread Christmas Joy Abroad

More than 100,000 Christmas boxes for the children of Central Europe were packed by the Junior Red Cross last year. The spread of Christmas joy through these boxes will be largely increased this year because of the plans already under way.
