GENUINE IHC REPAIRS

THAT means that the repairs having this trade-mark were made in the factory where the original machine came from. It also means that these repair parts were made by the same workmen who made similar parts for new machines and that they are made of the same materials.

Genuine IHC repairs fit closer, wear better and last longer than "Will-Fit" or "Made-For" substitutes. A machine that is part genuine and part imitation is a hybrid, a mongrel. Come to us and get genuine IHC repairs, and you will also get the McCormick-Deering repair service, which is worth while.

Thanks

Not being able to thank each one personally, Prof. Spies has asked the Journal to extend his heartfelt thanks to all those who in any way assisted in helping make the band entertainment such a success. He particularly mentioned the ladies who furnished the supper for the band boys. He is of the opinion that when it comes to putting up good "cats" the Nyssa ladies have got the world beat and wishes to assure them of his deep appreciation.

With the departure of Rev. Fleming, Nyssa is again without a resident pastor. This condition cannot of course be permitted to exist for any great length of time. The work which must necessarily be done is too great to be successfully carried forward by our local people. A trained man is indispensable, and we would suggest that the next pastor be drawn from the ranks of the Presbyterian workers, in order to assure all concerned that our community church is not narrowly sectarian, a suspicion which, while we regard it as quite unfounded, has nevertheless gained some credence in the past.

Some Livestock on Every Farm

SPECIALIZED grain and hay farming without livestock to consume the surplus is like raising livestock without raising any of the feeds which will reduce the cost of producing the animals. Either way puts the scale of profits out of balance and leaves the farmer to face the possibilities of loss on maybe his one and only class of production.

We are particularly interested here at the Malheur County Bank in the development of permanent and continuous agricultural prosperity, and are always glad to lend assistance in providing the best kind and quality of livestock for the farmers in this locality.
