Weary of Life

The tragic death on Monday of Jack Miller caused deep grief throughout this community, where he had for so many years been a familiar figure.

Born in Liverpool, England, seventy years ago, Mr. Miller emigrated to this country when a very young man. For some years he was employed by the Winchester Arms Co. Later he came West, settling in Malheur county, which at that time was virtually a wilderness. Here he resided for some 40 years, employed for the most part in the livestock industry. For the past few years he has lived on his small fruit ranch at Apple Valley. For some time he had been more or less despondent, due perhaps to the poor returns of the last few years in the fruit business and the recent frost which destroyed all possibility of a crop this year proved the finishing blow to his hopes for this year. Despair settled upon him; he decided to end it all. An empty phial which had contained strychnine told the tale.

Jack Miller was a man greatly above the average intelligence, well educated, and possessed of a pleasant, straight forward manner which won him the friendship of all with whom he came in contact. His mournful end brought sorrow to a host of friends.

The funeral was held Wednesday from the Parish hall, Nyssa, Rev. I. Q. Wood of Ontario officiating.

The Owyhee Project

E. M. Blodgett, Larry Hamaker and C. F. Eder motored to Ontario Wednesday evening to attend a meeting held there to hear Mr. Van Petten's report on the trip to Washington of himself, P. J. Gallagher and Judge Biggs, made in the interest of the Owyhee project. The report is most encouraging. Great progress has been made by our representatives in bringing the project to the attention of the proper officials, thoroughly convincing them that the proposition is such a highly meritorious one that it should be built at the earliest possible moment.

As the fact finding commission has recommended an appropriation of \$1,500,000 for the project and it seems likely that congress will follow their advice, every confidence is expressed that the beginning of the construction of the Owyhee project will not be long delayed.

Both Senator McNary and Representative Sinnott deserve much credit for the hard fighting they have done and are still doing to have this project adopted by the reclamation service.

Bobbed Hair

The bobbed hair craze has struck the ladies of Nyssa with full force and our tonsorial artists have been busy during the week making the ladies' tresses conform to the latest style. Some who but a few short days ago were severely condemning their erring sisters for bobbing their hair have themselves fallen victims to the lure. The poet must have had bobbed hair in mind when he penned these lines:

Vice is a monster of so frightful a mien
As to be hated needs but to be seen;
But seen too oft, familiar with her face,
We first endure, then pity then embrace.
