City Fountain Fixed.

The city fountain is again in working order, a new top having been put on this week by Marshal Reberger. This fixes it up as good as it was originally and is all ready for somebody else to run into it. We trust that everyone will carefully steer their autos and horses away from it till the hot season is over, so that the fountain will not be disturbed in its useful function of assuaging the thirst of sweltering citizens during the summer season.
