Unlucky Carthaginian

Sophonisba, a Carthaginian princess, was born under an unlucky star. She was betrothed to Masinissa, but was compelled to marry Syphax. Masinissa defeated Syphax and wed her, but the Romans made him give her up.

Why He Escaped

The girl was interested in the yarns the fat old sailor was telling. He had just finished relating his experiences with cannibals, and she said: "And so the natives didn't harm you, after all?" "Bless you, no," was the reply. "They didn't have a saucepan my size."

China as Hub of Universe

China is referred to as the Middle Kingdom. This is a translation of Tehang-Kove. The name was adopted on the belief of the Chinese that their kingdom was the center of the world.

Easier-riding because it is more flexible. More flexible because it is built with the new integral bead. Long wearing, partly because of this new flexible construction and partly because it has an extra thick, tough tread.
