ATTITUDE CHANGED.

A Boise minister waxes very wrathful over a sermon by another minister of that city and in a thoroughly typical ministerial communication to the Capital News flays said minister unmercifully. Among other things he charges that "Mr. Loekwood slanders the Bible when he charges that it teaches human slavery and denies woman the right of suffrage. That the theory that the earth is a sphere, rotating upon its axis and revolving about the sun contradicts the Bible is absolutely untrue."

In the light of history the reverend gentleman's statements are rather sweeping, to say the least. Several of the large churches divided on the slavery question during the war of the rebellion and those in favor put up some pretty good argument based upon the scriptures. And those passages are still there.

We can remember when ministers were a most unanimous in condemning woman suffrage on the ground that it was forbidden by the Bible. Why the changed attitude? The Bible hasn't changed.

There was a time when it was extremely unhealthy for anyone to teach that the earth revolved around the sun, the church authorities claiming that the Bible taught that the sun revolved around the earth. These are well known facts and show that increase of knowledge has forced the church to change its attitude on these questions.

DIVINE RIGHT OF KINGS

The time is near at hand when the people of the United States will unite in celebrating an event which marks our successful rebellion against the authority of George III of England. This event will be celebrated by members of all religious denominations, as well as those of no religious belief. Yet according to the Bible the act of the colonies in throwing off the yoke of England was a direct rebellion against God, and George Washington was a traitor to the God he professed to worship. Listen: Let every soul be subject unto the

higher powers. For there is no power but of God; the powers that be are ordained of God.

Whoever therefore resisteth the power resisteth the ordinance of God; and they that resist shall receive to themselves damnation. Rom. 13:1, 2.

Fortunately Paul was mistaken in this matter, else George Washington and all the rest of the patriot army would be doomed to everlasting punishment. But how do those who profess to believe the Bible reconcile their consciences to the celebration of the Fourth of July.

Thrifty Immigrants

Before the World war the average receipts in Italy from immigrants in the United States was \$13,000,000. In 1924 the average receipts in Italy of American funds sent by the immigrants in the United States was \$16,000,000. This increase is in the face of immigration restrictions set up by the United States which is holding down the number of new arrivals.

Finger-Nail Defects

Furrows of the nails are sometimes caused by a local disease which can only be prescribed for by a physician. If these ridges grow toward the end of the nail, they may be eventually removed by the trimming process. If they are longitudinal they cannot be removed by this method, but can only be improved by thorough polishing.

Merit in Silence

Slight is the merit of keeping silence on a matter; on the other hand, serious is the guilt of talking on things whereon we should be silent.—Ovid.

Keep Furniture Clean

Highly oiled surfaces should be wiped with a soft cloth wrung out of tepid water. A small quantity of neutral white soap solution in the water can be used if there are finger marks or other grease spots, but do not use a strong soap, for alkalis are ruinous.

Admiration and Imitation

There is a long and wearisome step between admiration and imitation.—Richter.
