Mr. Cole, the jeweler, attended a roping and branding exhibition at the Ward ranch this week which he describes as thrilling. Horses from two to five years old that had never had a rope on were roped and furnish hair-raising exhibitions of equine fury. Under the skillful handling of the bronco busters, however, they were forced to submit to being handled. Mr. Cole became so enthused with the sport that joined whole heartedly in the mix up.

Can You Beat Her?

For several years there has existed a rivalry between Mrs. A. V. Cook and P. M. Binkley as to which would have the first new potatoes. Mrs. Cook concedes that P. M. usually wins out, but this year she is congratulating herself on not only beating her old rival, but everyone else in town by having young spuds fully large enough for table use during the first week in June. Can any of our readers beat her time?

For modes of faith let graceless zealots fight; he can't be wrong whose life is in the right.—Benjamin Franklin.

Polish Auto Trade Hit

Winters in Poland are so severe that the automobile trade is almost paralyzed.

Band Concert

The Wednesday evening band concerts are rapidly gaining in popularity as the increasing attendance testifies. Last Wednesday evening the street in front of the band for a block was jammed with autos and the space surrounding the stand was filled.

The large crowd was treated to a special and very enjoyable feature on this occasion—the vocal music rendered by Mrs. M. Gordon. The lady is a musical artist of high order, with a voice of sweetness and power that was a revelation to those who heard her. She appeared twice, rendering a number of popular selections at each appearance, and the last time was forced by the cheering and knocking of auto horns to respond to an encore.

Surgical Pencil

Among the most interesting pencils made is one intended for the use of surgeons. For marking outlines or divisions on the surface of a patient's body before performing an operation the use of the pencil is sometimes necessary, and, as the ordinary pencil is useless, a special one is made which marks the skin as clearly as an ordinary lead pencil will mark a sheet of paper.
