Miss Catherine V. Conway, Ontario, Press Chairman.Contract Accepted
for Building the
Owyhee Project

Those dear souls who have up to the present time insisted with much mournful satisfaction that the Owyhee project would never be built will soon be forced by the logic of events to admit their error. The developments of the past week or two prove conclusively that the government is going ahead with the work just as fast as the legal machinery can revolve. A party of government surveyors passed through Nyssa the first of the week to survey out the road to the damsite. The building of this road will be the first construction work done and is expected to use up most of the \$255,000 now available.

Tuesday a committee appointed by Engineer Newell went out to the damsite to appraise the value of the land that will be inundated by the backing up of the waters above the dam. The inundated waters will cover the land for a distance of 40 miles. The members of the committee are Thos. Claggett, well known Ontario rancher, and Messrs. Anderson and Farmer, two department employees.

At a meeting of the district board held Thursday night at the office of the secretary, E. M. Blodgett, the directors accepted the contract, as approved by Secretary Work, for the proposed Owyhee project, which will water approximately 156,000 acres of land, at a cost of about \$20,000,000. After this contract has been accepted at Washington the way will be cleared for actual construction work to commence.

Fairy Tale

Once upon a time there was a chorus girl who was not hungry after the show.

In Auto Accident

J. P. Dunaway was one of the victims of an auto accident near Jamieson this week in which he sustained a fractured rib and a severe shock to his nervous system. The other victim, a young man about 18, was also injured in sundry and divers places about his anatomy. Both cars were considerably damaged.

The accident was caused by the young man backing his car out into the road to make a turn just as Mr. Dunaway was passing. There was a drop from the bank down onto the road and the driver lost control of his car, backing into Mr. Dunaway's right of way, and the cars came together with a crash. Only luck prevented a fatal accident. The young man assumed the blame and offered to make good the damage but Mr. Dunaway good naturedly refused to take any thing.

Compelled to Do Penance

As the result of a fight with Oxford students on the feast of St. Scholastica, February 10, 1354, in the reign of Edward III, the citizens of the town of Oxford were compelled to do annual penance.

Thrushes Long Singers

Among birds the thrush has perhaps the greatest singing endurance. A thrush has been known to sing 10 hours a day. A blackbird, however, has been found to have the best rhythm and sense of time, and his tune is said to be the best also.
