USE OVERSIZE TIRES
FOR MORE MILEAGE

The use of oversize tires will enable many motorists to get much greater satisfaction and longer mileage than with regular tires.

Motor cars are equipped with tires that are ample for any ordinary use, provided they are inflated to the correct pressure. However, most motorists abuse their tires by overloading them and through failure to keep them "pumped up."

"Oversizing allows a much greater margin of safety, and in the long run justifies the extra expense. There are many advantages to using oversize tires, including more comfortable riding, better braking with less tendency to skid, and less tire trouble. The larger tire is not so easily cut or bruised and the tread wears much longer.

Last but not least, the oversize tire will average far greater mileage, which in terms of cost per mile, means economy. In tires as in everything else, it pays to buy dependable, quality merchandise and Firestones have a long established reputation for being the leader in that field.

Modern smokers praise the
integrity of Camels

THIS is the age of frankness and plain-speaking, and it rates Camel first among cigarettes.

For Camel is that kind of a smoke. Camel is all quality and no false front or show. Camels are made of the choicest Turkish and Domestic tobaccos grown—no substitutes. And the finest blending ever given a cigarette.

It is Camel character that has won the smokers of today—such honesty of taste and fragrance as never was known in a cigarette before. You'll find all dreams of smoking pleasure realized in this modern, quality cigarette.

"Have a Camel!"
