Prompt and understanding service and our desire to promote prosper-
ity; to help you get your share of it and to use that share with
wisdom

Someone should offer a prize for a new argument for or against prohibition.

It is a poor executive who can not take a vacation without being missed.

The government will lighten our burdens by making paper money smaller.

"Scotch Gave Us Golf"—Headline. Now who said the Scotch were not generous?

With fishing and golf in full swing, disciples of Ananias are showing old-time form.

If Mr. Woolen's presidential boom is to get anywhere he must not shrink from publicity.

By this time nearly everything and everybody have been bunked except the debunkers.

The American small boy is now puzzled over whether he'd rather be Babe Ruth or Lindbergh.

The many jobs assigned to Secretary Hoover illustrate the proverb "a good horse never lacks a saddle."

Chicago engineers are strictly up-to-date. They will first build a bridge and then run the river under it.

Earl Carroll is to be bathroom orderly in Atlanta prison, but there won't be any champagne, etc., in the tubs.

We are skeptical about this movement to banish illiteracy. If it succeeds, where are we to get our jury-men?

Thomas Gray wrote "the paths of glory lead but to the grave." But that was before the movies had been invented.

Colorado objects to the designation of its agriculture as "dry farming." Louisiana is equally opposed to the wet kind.

The world's champion optimist is Robert Fredges, who expects to pay his expenses on a world tour by playing the ukelele and taking up collections.

Electricity will replace steam power in the main plant of the Youngstown (Ohio) Sheet and Tube Company, the change requiring about \$6,000,000 worth of new equipment.

PROTECT THE PIONEERS

When a man invents something, or writes something, that no one else ever invented or wrote, the patent and copy write laws protect him in order that he may receive the fruits of his original effort.

Now, why can't the same protection be given to pioneers in other lines of indoor and outdoor sport?

Think what it would have meant to Gertude Ederle for example, if she could have barred all other ladies from the Channel swim until she had fully cashed in on her epoch-making feat. But while her managers were dicker and spurning offers for her appearance in vaudeville and the movies, another lady, Mrs. Corson, mother of two children, up and does the same stunt.

A similar fate befell George Young who was the first to swim the Catalina Channel.

Then there was Commander Byrd, who was the first to fly over the North Pole. Before the shouting died away Amundsen, Ellsworth and Nobile negotiated the same trip, and honors had to be shared even with Nobile's pet terrier, which was also a passenger on the Norge.

Recently Lindbergh stirred the enthusiasm of the whole world by flying from New York to Paris, but before he got home Chamberlin and Levine beat his distance and horned in on the publicity.

It ain't right. The pioneers ought to have the lime-light all alone for a specified period.

We propose a new law: The first fellow to fly to the moon and back should be allowed to hold undisputed sway on the front page for a whole year before anyone else must protect the pioneers.

"PEN" GOES BROKE

The Louisiana state penitentiary is bankrupt, busted, broke. It is said that it may have to go out of business for lack of funds. This sounds like a joke, but it isn't.

Harry C. Pitcher, manager of the institution, declares that for several months the penitentiary has been unable to meet its bills, and its credit is practically exhausted.

This condition has been brought about through a provision in the appropriation bill for the prison's maintenance which requires that funds to meet its expenses must be provided from its earnings. An increase of inmates, poor crop conditions, low sugar prices and flood losses are said to have conspired to put the penitentiary into virtual bankruptcy.

Unless the legislature shall authorize the borrowing of about half a million dollars until the present crops can be marketed, it appears that the inmates must be turned loose.

There is material for a comic opera in this situation.

WHAT'S NEW?

An English airship to carry 100 passengers is expected to be ready for a flight to America this fall.

A Canadian claims the invention of a fire alarm box which will establish the identity of the person turning in an alarm.

French chemists have perfected process for extracting gasoline from lignite in commercial quantities.

Dimples may be made to order by a new device with a vacuum cup attachment.

Testing a new stabilizing device an aviator at Santa Monica, Cal., flew 45 minutes without touching his hands to the controls.

In a new French air plane the fuselage is so constructed as to act as a parachute in the event of a fall.

BOYS AND GIRLS

Margaret Elizabeth Batton of Bessemer, Ala., has enrolled as a member of the American Legion Auxiliary when only two hours old. Her father is adjutant of the local Legion post.

Charlotte Feldman of Dorchester, Mass., aged 7, led an orchestra of 170 schoolmates at the recent annual musical festival of the Boston public schools.

Tommy Warner of Kokomo, Ind., broke the world's record for the high school pole vault by clearing the bar at 12 feet 9 inches.

In a campaign against rats, pupils of Sullivan High School, Chicago, killed 483 of the rodents.

Mancy Popham, 14, climbed a 150-foot smokestack at Brynecethin, Wales.

Dorothy Johnson, a Chicago schoolgirl, has a pet snake 4 feet 4 inches long.

Robert Brown, a 15-year old boy of San Francisco, is the first and only knight eagle scout in the U. S.

INTERESTING NOTES

Only one murder has occurred at Monte Carlo in 20 years, but there have been many suicides.

The present minister of education in New South Wales was handling a pick in a coal mine 12 years ago.

A wooden idol 35 feet in height was recently found by excavators in Florida.

Five Presidents were married twice, Tyler, Fillmore, Benjamin Harrison, Roosevelt and Wilson.

Nearly one-half of the inhabitants of Hawaii are Japanese.

Airplanes flying between London and Paris now have buffet equipment.

Four chimpanzees in the London zoo take tea every afternoon at 4 o'clock.

In many Chinese towns the streets have been laid out in crooked fashion to confuse the Evil One, who is supposed to travel only in a straight line.

Germany now controls about 65 percent of Europe's 20,000 miles of airways.

Faked Egyptian mummies costing about \$20 to produce are sold to tourists for prices as high as \$1,000.
