TRY WRITING A LETTER

Your home paper is really a letter writer if nothing more. Week after week we prepare this printed letter for those living here and for those who have moved to some other locality, telling of our marriages, births, deaths the coming and going people, of business efforts and progress, accidents, crops, improvements, meetings and so on. In fact, everything of interest and importance. If you should undertake to write a letter to an absent friend every week telling him all the news you would get a faint idea of the task in preparing a newspaper. Many of our townspeople recognize this and take pleasure in giving us items of news. It helps us and is appreciated.
