QUESTIONS FOR BIBLE STUDENTS

A year's subscription to the Journal will be given for the first correct answer to each of the following questions. The Bible will be accepted as authority except where the statements are contradictory, in which case neither will be accepted.

- Are God and Christ co-equal?
How many men have ascended to heaven?
Has any man ever seen God?
Is God all powerful?
Does God ever change?
Is God the author of evil?
Why was the Sabbath day instituted?
How many days and nights was Christ in the sepulcher?
Was God's promise to Abraham to give him the land of Canaan fulfilled?
Was Adam made before or after the animals?
Who was the father-in-law of Mary, the mother of Jesus?
Was Jesus taken into Egypt to keep him from being killed by Herod?
How many women came to Christ's sepulcher on the morning of the first day of the week, and at what hour?
Did the women tell the disciples what they had seen.
How many generations were there between David and Christ?

DISCARDED CIGARETTE STARTS FIRE

A carelessly discarded cigarette which lodged between the planks on the bridge across Snake river, east of Nyssa, had started to do its damage Saturday, when Mr. Wimp of the Nyssa Laundry happened along just as the boards were getting nicely on fire.

At any time of the year a carelessly thrown cigarette will cause damage, but during the very dry weather danger of ignition is double and one cannot be too careful in disposing of their cigarettes.

In this case it would have taken only a very few minutes to have caused considerable damage had not a timely discovery been made and the fire put out.

HASFURTHER-BROWN

The many friends of Miss Madeline Hasfurther will be pleased to learn of her marriage at Spokane, Washington, August 1st, to Fred Brown of that place.

Miss Hasfurther made many friends in Nyssa during her year here as teacher in the Nyssa High School, all who extend hearty congratulations to the happy couple in their matrimonial venture.

Mr. and Mrs. Brown will reside in Spokane.

Real Non-Skid Performance

Slow, Even Tread Wear

That's what the Goodyear All-Weather Tread Balloon Tire gives.

Real Non-Skid Performance—because the deep-cut, sharpened blocks in the tread's center seize, grip and hang on.

Slow, Even, Tread Wear—because these sharp-edged blocks are placed in a semiflat design. They not only grip the road, but retain their usefulness longer than any non-skid tread heretofore offered.

Come in and see it. We'll let the tire do all the talking. It's backed by our standard Goodyear service.
